

**CASCADE CHARTER TOWNSHIP**  
5920 Tahoe Dr. Grand Rapids, MI 49546-7123

**Date:** July 12, 2021  
**To:** Supervisor Grace Lesperance  
Treasurer Ken Peirce (2021 Vice Chair)  
Trustee Jim Koessel (2021 Chair)  
**From:** Ben Swayze, Township Manager  
**Subject:** Personnel & Finance Committee Agenda – July 14, 2021 (9:00am)

The Personnel and Finance Committee is to meet in the Large Conference Room of the Township Office (and/or via Zoom) to discuss the following:

1. **Approval of the June 9, 2021 Meeting Minutes** – The Committee is responsible for approving the previous meeting notes

**Recommended Action** – Approve Minutes

2. **American Rescue Act Funding** – The Township has been allocated \$2.03 million dollars in American Rescue Plan Act funding. The funding determination was population based, based on 2019 census estimated numbers. It is anticipated the Township will receive approximately 50% of the funding in July or August 2021, with the remaining funding available in approximately 1 year. The Township has until December 31, 2024 to expend the funds.

I have attached two documents, a Frequently Asked Questions document and a Compliance and Reporting Guidance Document from Treasury. The committee should discuss a process to follow to determine how the funds will be spent.

**Recommended Action** – Discussion and/or recommendation to the Township Board regarding American Rescue Act Funding

# American Rescue Plan Act

## Eligible Funding Amounts for Non-Entitlement Units (NEUs)

Estimates Generated by the Michigan Department of Treasury as of June 17, 2021

Local Unit Code	Name	County	Population 2019	Funding Estimate
391010	Alamo Township	Kalamazoo	3,948	\$ 413,231
391020	Brady Township	Kalamazoo	3,852	\$ 403,183
391030	Charleston Township	Kalamazoo	2,047	\$ 214,257
391040	Climax Township	Kalamazoo	1,756	\$ 183,798
391050	Comstock Charter Township	Kalamazoo	15,594	\$ 1,632,201
391060	Cooper Charter Township	Kalamazoo	11,067	\$ 1,158,367
391070	Kalamazoo Charter Township	Kalamazoo	22,651	\$ 2,370,847
391080	Oshtemo Charter Township	Kalamazoo	23,190	\$ 2,427,264
391090	Pavilion Township	Kalamazoo	6,438	\$ 673,856
391100	Prairie Ronde Township	Kalamazoo	2,418	\$ 253,089
391110	Richland Township	Kalamazoo	7,544	\$ 789,620
391120	Ross Township	Kalamazoo	4,092	\$ 428,304
391130	Schoolcraft Township	Kalamazoo	4,759	\$ 498,118
391140	Texas Charter Township	Kalamazoo	17,250	\$ 1,805,533

# Compliance and Reporting Guidance

State and Local Fiscal Recovery Funds

*June 24, 2021*

*Version: 1.1*

# Coronavirus State and Local Fiscal Recovery Funds Guidance on Recipient Compliance and Reporting Responsibilities

On March 11, 2021, the American Rescue Plan Act was signed into law, and established the Coronavirus State Fiscal Recovery Fund and Coronavirus Local Fiscal Recovery Funds, which together make up the Coronavirus State and Local Fiscal Recovery Funds (“SLFRF”) program. This program is intended to provide support to State, territorial, local, and Tribal governments in responding to the economic and public health impacts of COVID-19 and in their efforts to contain impacts on their communities, residents, and businesses.

This guidance provides additional detail and clarification for each recipient’s compliance and reporting responsibilities under the SLFRF program, and should be read in concert with the Award Terms and Conditions, the authorizing statute, the [SLFRF implementing regulation](#), and other regulatory and statutory requirements, including regulatory requirements under [the Uniform Guidance \(2 CFR Part 200\)](#). Please see the [Assistance Listing](#) in SAM.gov under assistance listing number (formerly known as CFDA number), 21.027 for more information.

**Please Note:** This guidance document applies to the SLFRF program only and does not change nor impact reporting and compliance requirements for the Coronavirus Relief Fund (“CRF”) established by the CARES Act.

This guidance includes two parts:

## Part 1: General Guidance

This section provides an orientation to recipients’ compliance responsibilities and the U.S. Department of the Treasury’s (“Treasury”) expectations and recommends best practices where appropriate under the SLFRF Program.

A. Key Principles.....	P. 3
B. Statutory Eligible Uses.....	P. 3
C. Treasury’s Rulemaking.....	P. 4
D. Uniform Guidance (2 CFR Part 200).....	P. 6
E. Award Terms and Conditions.....	P. 10

## Part 2: Reporting Requirements

This section provides information on the reporting requirements for the SLFRF program.

A. Interim Report.....	P. 13
B. Project and Expenditure Report.....	P. 15
C. Recovery Plan Performance Report.....	P. 23

Appendix 1: Expenditure Categories.....	P. 31
---	-------

Appendix 2: Evidenced-Based Intervention Additional Information.....	P. 33
--	-------

## Part 1: General Guidance

This section provides an orientation on recipients' compliance responsibilities and Treasury's expectations and recommended best practices where appropriate under the SLFRF program.

Recipients under the SLFRF program are the eligible entities identified in sections 602 and 603 of the Social Security Act as added by section 9901 of the American Rescue Plan Act of 2021 (the "SLFRF statute") that receive a SLFRF award. Subrecipients under the SLFRF program are entities that receive a subaward from a recipient to carry out the purposes (program or project) of the SLFRF award on behalf of the recipient.

Recipients are accountable to Treasury for oversight of their subrecipients, including ensuring their subrecipients comply with the SLFRF statute, SLFRF Award Terms and Conditions, Treasury's Interim Final Rule, and reporting requirements, as applicable.

### A. Key Principles

There are several guiding principles for developing your own effective compliance regimes:

- Recipients and subrecipients are the first line of defense, and responsible for ensuring the SLFRF award funds are not used for ineligible purposes, and there is no fraud, waste, and abuse associated with their SLFRF award;
- Many SLFRF-funded projects respond to the COVID-19 public health emergency and meet urgent community needs. Swift and effective implementation is vital, and recipients must balance facilitating simple and rapid program access widely across the community and maintaining a robust documentation and compliance regime;
- SLFRF-funded projects should advance shared interests and promote equitable delivery of government benefits and opportunities to underserved communities, as outlined in [Executive Order 13985, On Advancing Racial Equity and Support for Underserved Communities Through the Federal Government](#); and
- Transparency and public accountability for SLFRF award funds and use of such funds are critical to upholding program integrity and trust in all levels of government, and SLFRF award funds should be managed consistent with Administration guidance per [Memorandum M-21-20](#) and [Memorandum M-20-21](#).

### B. Statutory Eligible Uses

As a recipient of an SLFRF award, your organization has substantial discretion to use the award funds in the ways that best suit the needs of your constituents – as long as such use fits into one of the following four statutory categories:

1. To respond to the COVID-19 public health emergency or its negative economic impacts;
2. To respond to workers performing essential work during the COVID-19 public health emergency by providing premium pay to such eligible workers of the recipient, or by providing grants to eligible employers that have eligible workers who performed essential work;
3. For the provision of government services, to the extent of the reduction in revenue of such recipient due to the COVID-19 public health emergency, relative to revenues collected in the most recent full fiscal year of the recipient prior to the emergency; and
4. To make necessary investments in water, sewer, or broadband infrastructure.

Treasury adopted an [Interim Final Rule](#) to implement these eligible use categories and other restrictions on the use of funds under the SLFRF program.<sup>1</sup> It is the recipient's responsibility to ensure all SLFRF award funds are used in compliance with these requirements. In addition, recipients should be mindful of any additional compliance obligations that may apply – for example, additional restrictions imposed upon other sources of funds used in conjunction with SLFRF award funds, or statutes and regulations that may independently apply to water, broadband, and sewer infrastructure projects. Recipients should ensure they maintain proper documentation supporting determinations of costs and applicable compliance requirements, and how they have been satisfied as part of their award management, internal controls, and subrecipient oversight and management.

### C. Treasury's Rule

Treasury's [Interim Final Rule](#) details recipients' compliance responsibilities and provides additional information on eligible and restricted uses of SLFRF award funds and reporting requirements. Your organization should review and comply with the information contained in Treasury's Interim Final Rule, and any subsequent final rule when building appropriate controls for SLFRF award funds.

- 1. Eligible and Restricted Uses of SLFRF Funds.** As described in the SLFRF statute and summarized above, there are four enumerated eligible uses of SLFRF award funds. As a recipient of an award under the SLFRF program, your organization is responsible for complying with requirements for the use of funds. In addition to determining a given project's eligibility, recipients are also responsible for determining subrecipient's or beneficiaries' eligibility and must monitor use of SLFRF award funds.

To help recipients build a greater understanding of eligible uses, Treasury's Interim Final Rule establishes a framework for determining whether a specific project would be eligible under the SLFRF program, including some helpful definitions. For example, Treasury's Interim Final Rule establishes:

- A framework for determining whether a project "responds to" a "negative economic impact" caused by the COVID-19 public health emergency;
- Definitions of "eligible employers", "essential work," "eligible workers", and "premium pay" for cases where premium pay is an eligible use;
- A definition of "general revenue" and a formula for calculating revenue lost due to the COVID-19 public health emergency;
- A framework for eligible water and sewer infrastructure projects that aligns eligible uses with projects that are eligible under the Environmental Protection Agency's Drinking Water and Clean Water State Revolving Funds; and
- A framework for eligible broadband projects designed to provide service to unserved or underserved households, or businesses at speeds sufficient to enable users to generally meet household needs, including the ability to support the simultaneous use of work, education, and health applications, and also sufficiently robust to meet increasing household demands for bandwidth.

Treasury's Interim Final Rule also provides more information on four important restrictions on use of SLFRF award funds: recipients may not deposit SLFRF funds into a pension fund; recipients that are States or territories may not use SLFRF funds to offset a reduction in net tax revenue caused by the recipient's change in law, regulation, or administrative

---

<sup>1</sup> Treasury's Interim Final Rule is effective as of May 17, 2021, and public comments are due July 16, 2021. This guidance may be clarified consistent with the final rule.

<https://www.govinfo.gov/content/pkg/FR-2021-05-17/pdf/2021-10283.pdf>

interpretation; and, recipients may not use SLFRF funds as non-Federal match where prohibited. In addition, the Interim Final Rule clarifies certain uses of SLFRF funds outside the scope of eligible uses, including that recipients generally may not use SLFRF funds directly to service debt, satisfy a judgment or settlement, or contribute to a “rainy day” fund. Recipients should refer to Treasury’s Interim Final Rule for more information on these restrictions.

2. **Eligible Costs Timeframe.** Your organization, as a recipient of an SLFRF award, may use SLFRF funds to cover eligible costs that your organization incurred during the period that begins on March 3, 2021 and ends on December 31, 2024, as long as the award funds for the obligations incurred by December 31, 2024 are expended by December 31, 2026. Costs for projects incurred by the recipient State, territorial, local, or Tribal government prior to March 3, 2021 are not eligible, as provided for in Treasury’s Interim Final Rule.

Recipients may use SLFRF award funds to provide assistance to households, businesses, and individuals within the eligible use categories described in Treasury’s Interim Final Rule for costs that those households, businesses and individuals incurred prior to March 3, 2021. For example,

- a. **Public Health/Negative Economic Impacts:** Recipients may use SLFRF award funds to provide assistance to households – such as rent, mortgage, or utility assistance – for costs incurred by the household prior to March 3, 2021, provided that the recipient State, territorial, local or Tribal government did not incur the cost of providing such assistance prior to March 3, 2021.
- b. **Premium Pay:** Recipients may provide premium pay retrospectively for work performed at any time since the start of the COVID-19 public health emergency. Such premium pay must be “in addition to” wages and remuneration already received and the obligation to provide such pay must not have been incurred by the recipient prior to March 3, 2021.
- c. **Revenue Loss:** Treasury’s Interim Final Rule gives recipients broad latitude to use funds for the provision of government services to the extent of reduction in revenue. While calculation of lost revenue begins with the recipient’s revenue in the last full fiscal year prior to the COVID-19 public health emergency and includes the 12-month period ending December 31, 2020, use of funds for government services must be forward looking for costs incurred by the recipient after March 3, 2021.
- d. **Investments in Water, Sewer, and Broadband:** Recipients may use SLFRF award funds to make necessary investments in water, sewer, and broadband. Recipients may use SLFRF award funds to cover costs incurred for eligible projects planned or started prior to March 3, 2021, provided that the project costs covered by the SLFRF award funds were incurred after March 3, 2021.

Any funds not obligated or expended for eligible uses by the timelines above must be returned to Treasury, including any unobligated or unexpended funds that have been provided to subrecipients and contractors. For the purposes of determining expenditure eligibility, Treasury’s Interim Final Rule provides that “incurred” has the same meaning given to “financial obligation” in 2 CFR § 200.1.

3. **Reporting.** Generally, recipients must submit one initial interim report, quarterly or annual Project and Expenditure reports which include subaward reporting, and in some cases annual Recovery Plan reports. Treasury’s Interim Final Rule and Part 2 of this guidance provide more detail around SLFRF reporting requirements.

## Assistance Listing

The [Assistance Listing](#) for the Coronavirus State and Local Fiscal Recovery Funds (CSLFRF) was published May 28, 2021 on SAM.gov under Assistance Listing Number (“ALN”), formerly known as CFDA Number, **21.027**.

The assistance listing includes helpful information including program purpose, statutory authority, eligibility requirements, and compliance requirements for recipients. The ALN is the unique 5-digit number assigned to identify a federal assistance listing, and can be used to search for federal assistance program information, including funding opportunities, spending on USASpending.gov, or audit results through the Federal Audit Clearinghouse.

To expedite payments and meet statutory timelines Treasury issued initial payments under an existing ALN, 21.019, assigned to the CRF. If you have already received funds or captured the initial number in your records, please update your systems and reporting to reflect the new ALN 21.027 for the SLFRF program. **Recipients must use ALN 21.027 for all financial accounting, subawards, and associated program reporting requirements for the SLFRF awards.**

### D. Uniform Administrative Requirements

The SLFRF awards are generally subject to the requirements set forth in the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, [2 CFR Part 200](#) (the “Uniform Guidance”). In all instances, your organization should review the Uniform Guidance requirements applicable to your organization’s use of SLFRF funds, and SLFRF-funded projects. Recipients should consider how and whether certain aspects of the Uniform Guidance apply.

The following sections provide a general summary of your organization’s compliance responsibilities under applicable statutes and regulations, including the Uniform Guidance, as described in the [2020 OMB Compliance Supplement Part 3. Compliance Requirements \(issued August 18, 2020\)](#). Note that the descriptions below are only general summaries and all recipients and subrecipients are advised to carefully review the Uniform Guidance requirements and any additional regulatory and statutory requirements applicable to the program.

- 1. Allowable Activities.** Each recipient should review program requirements, including Treasury’s Interim Final Rule and the recipient’s Award Terms and Conditions, to determine and record eligible uses of SLFRF funds. Per 2 CFR 200.303, your organization must develop and implement effective internal controls to ensure that funding decisions under the SLFRF award constitute eligible uses of funds, and document determinations.
- 2. Allowable Costs/Cost Principles.** As outlined in the Uniform Guidance at 2 CFR Part 200, Subpart E regarding Cost Principles, allowable costs are based on the premise that a recipient is responsible for the effective administration of Federal awards, application of sound management practices, and administration of Federal funds in a manner consistent with the program objectives and terms and conditions of the award. Recipients must implement robust internal controls and effective monitoring to ensure compliance with the Cost Principles, which are important for building trust and accountability.

SLFRF Funds may be, but are not required to be, used along with other funding sources for a given project. Note that SLFRF Funds may not be used for a non-Federal cost share or match where prohibited by other Federal programs, e.g., funds may not be used for the State share for Medicaid.<sup>2</sup>

Treasury's Interim Final Rule and guidance and the Uniform Guidance outline the types of costs that are allowable, including certain audit costs. For example, per 2 CFR 200.425, a reasonably proportionate share of the costs of audits required by the Single Audit Act Amendments of 1996 are allowable; however, costs for audits that were not performed, or not in accordance with 2 CFR Part 200, Subpart F are not allowable. Please see 2 CFR Part 200, Subpart E regarding the Cost Principles for more information.

- a. **Administrative costs:** Recipients may use funds for administering the SLFRF program, including costs of consultants to support effective management and oversight, including consultation for ensuring compliance with legal, regulatory, and other requirements.<sup>3</sup> Further, costs must be reasonable and allocable as outlined in 2 CFR 200.404 and 2 CFR 200.405. Pursuant to the SLFRF Award Terms and Conditions, recipients are permitted to charge both direct and indirect costs to their SLFRF award as administrative costs. Direct costs are those that are identified specifically as costs of implementing the SLFRF program objectives, such as contract support, materials, and supplies for a project. Indirect costs are general overhead costs of an organization where a portion of such costs are allocable to the SLFRF award such as the cost of facilities or administrative functions like a director's office.<sup>45</sup> Each category of cost should be treated consistently in like circumstances as direct or indirect, and recipients may not charge the same administrative costs to both direct and indirect cost categories, or to other programs. If a recipient has a current Negotiated Indirect Costs Rate Agreement (NICRA) established with a Federal cognizant agency responsible for reviewing, negotiating, and approving cost allocation plans or indirect cost proposals, then the recipient may use its current NICRA. Alternatively, if the recipient does not have a NICRA, the recipient may elect to use the de minimis rate of 10 percent of the modified total direct costs pursuant to 2 CFR 200.414(f).
  - b. **Salaries and Expenses:** In general, certain employees' wages, salaries, and covered benefits are an eligible use of SLFRF award funds. Please see Treasury's Interim Final Rule for details.
3. **Cash Management.** SLFRF payments made to recipients are not subject to the requirements of the Cash Management Improvement Act and Treasury's implementing regulations at 31 CFR part 205 or 2 CFR 200.305(b)(8)-(9).
- As such, recipients can place funds in interest-bearing accounts, do not need to remit interest to Treasury, and are not limited to using that interest for eligible uses under the SLFRF award.
4. **Eligibility.** Under this program, recipients are responsible for ensuring funds are used for eligible purposes. Generally, recipients must develop and implement policies and procedures, and record retention, to determine and monitor implementation of criteria for

<sup>2</sup> See 42 CFR 433.51 and 45 CFR 75.306.

<sup>3</sup> Recipients also may use SLFRF funds directly for administrative costs to improve efficacy of programs that respond to the COVID-19 public health emergency. 31 CFR 35.6(b)(10).

<sup>4</sup> 2 CFR 200.413 Direct Costs.

<sup>5</sup> 2 CFR 200.414 Indirect Costs.

determining the eligibility of beneficiaries and/or subrecipients. Your organization, and if applicable, the subrecipient(s) administering a program on behalf of your organization, will need to maintain procedures for obtaining information evidencing a given beneficiary, subrecipient, or contractor's eligibility including a valid SAM.gov registration. Implementing risk-based due diligence for eligibility determinations is a best practice to augment your organization's existing controls.

5. **Equipment and Real Property Management.** Any purchase of equipment or real property with SLFRF funds must be consistent with the Uniform Guidance at 2 CFR Part 200, Subpart D. Equipment and real property acquired under this program must be used for the originally authorized purpose. Consistent with 2 CFR 200.311 and 2 CFR 200.313, any equipment or real property acquired using SLFRF funds shall vest in the non-Federal entity. Any acquisition and maintenance of equipment or real property must also be in compliance with relevant laws and regulations.
6. **Matching, Level of Effort, Earmarking.** There are no matching, level of effort, or earmarking compliance responsibilities associated with the SLFRF award. SLFRF funds may only be used for non-Federal match in other programs where costs are eligible under both SLFRF and the other program and use of such funds is not prohibited by the other program.
7. **Period of Performance.** Your organization should also develop and implement internal controls related to activities occurring outside the period of performance. For example, each recipient should articulate each project's policy on allowability of costs incurred prior to award or start of the period of performance. All funds remain subject to statutory requirements that they must be used for costs incurred by the recipient during the period that begins on March 3, 2021, and ends on December 31, 2024, and that award funds for the financial obligations incurred by December 31, 2024 must be expended by December 31, 2026. Any funds not used must be returned to Treasury.
8. **Procurement, Suspension & Debarment.** Recipients are responsible for ensuring that any procurement using SLFRF funds, or payments under procurement contracts using such funds are consistent with the procurement standards set forth in the Uniform Guidance at 2 CFR 200.317 through 2 CFR 200.327, as applicable. The Uniform Guidance establishes in 2 CFR 200.319 that all procurement transactions for property or services must be conducted in a manner providing full and open competition, consistent with standards outlined in 2 CFR 200.320, which allows for non-competitive procurements only in circumstances where at least one of the conditions below is true: the item is below the micro-purchase threshold; the item is only available from a single source; the public exigency or emergency will not permit a delay from publicizing a competitive solicitation; or after solicitation of a number of sources, competition is determined inadequate.<sup>6</sup> Recipients must have and use documented procurement procedures that are consistent with the standards outlined in 2 CFR 200.317 through 2 CFR 200.320. The Uniform Guidance requires an infrastructure for competitive bidding and contractor oversight, including maintaining written standards of conduct and prohibitions on dealing with suspended or debarred parties. Your organization must ensure adherence to all applicable local, State, and federal procurement laws and regulations.
9. **Program Income.** Generally, program income includes, but is not limited to, income from fees for services performed, the use or rental of real or personal property acquired under Federal awards and principal and interest on loans made with Federal award funds. Program income does not include interest earned on advances of Federal funds, rebates, credits, discounts, or interest on rebates, credits, or discounts. Recipients of SLFRF funds

---

<sup>6</sup> 2 CFR 200.320(c)(1)-(3) and (5)

should calculate, document, and record the organization's program income. Additional controls that your organization should implement include written policies that explicitly identify appropriate allocation methods, accounting standards and principles, compliance monitoring checks for program income calculations, and records.

The Uniform Guidance outlines the requirements that pertain to program income at 2 CFR 200.307. Treasury intends to provide additional guidance regarding program income and the application of 2 CFR 200.307(e)(1), including with respect to lending programs.

- 10. Reporting.** All recipients of federal funds must complete financial, performance, and compliance reporting as required and outlined in Part 2 of this guidance. Expenditures may be reported on a cash or accrual basis, as long as the methodology is disclosed and consistently applied. Reporting must be consistent with the definition of expenditures pursuant to 2 CFR 200.1. Your organization should appropriately maintain accounting records for compiling and reporting accurate, compliant financial data, in accordance with appropriate accounting standards and principles.

In addition, where appropriate, your organization needs to establish controls to ensure completion and timely submission of all mandatory performance and/or compliance reporting. See Part 2 of this guidance for a full overview of recipient reporting responsibilities.

- 11. Subrecipient Monitoring.** SLFRF recipients that are pass-through entities as defined under 2 CFR 200.1 are required to manage and monitor their subrecipients to ensure compliance with requirements of the SLFRF award pursuant to 2 CFR 200.332 regarding requirements for pass-through entities.

First, your organization must clearly identify to the subrecipient: (1) that the award is a subaward of SLFRF funds; (2) any and all compliance requirements for use of SLFRF funds; and (3) any and all reporting requirements for expenditures of SLFRF funds.

Next, your organization will need to evaluate each subrecipient's risk of noncompliance based on a set of common factors. These risk assessments may include factors such as prior experience in managing Federal funds, previous audits, personnel, and policies or procedures for award execution and oversight. Ongoing monitoring of any given subrecipient should reflect its assessed risk and include monitoring, identification of deficiencies, and follow-up to ensure appropriate remediation.

Accordingly, your organization should develop written policies and procedures for subrecipient monitoring and risk assessment and maintain records of all award agreements identifying or otherwise documenting subrecipients' compliance obligations.

- 12. Special Tests and Provisions.** Treasury has set a deadline of July 16, 2021, for receipt of public comment on its Interim Final Rule and will adopt a final rule responding to these comments. In addition, Treasury may add clarifications to the implementing guidance.

Across each of the compliance requirements above, Treasury described some best practices for development of internal controls. The table below provides a brief description and example of each best practice.

**Table 1: Internal controls best practices**

Best Practice	Description	Example
<b>Written policies and procedures</b>	Formal documentation of recipient policies and procedures	Documented procedure for determining worker eligibility for premium pay
<b>Written standards of conduct</b>	Formal statement of mission, values, principles, and professional standards	Documented code of conduct / ethics for subcontractors
<b>Risk-based due diligence</b>	Pre-payment validations conducted according to an assessed level of risk	Enhanced eligibility review of subrecipient with imperfect performance history
<b>Risk-based compliance monitoring</b>	Ongoing validations conducted according to an assessed level of risk	Higher degree of monitoring for projects that have a higher risk of fraud, given program characteristics
<b>Record maintenance and retention</b>	Creation and storage of financial and non-financial records.	Storage of all subrecipient payment information.

## E. Award Terms and Conditions

The Award Terms and Conditions of the SLFRF financial assistance agreement sets forth the compliance obligations for recipients pursuant to the SLFRF statute, the Uniform Guidance, and Treasury’s Interim Final Rule. Recipients should ensure they remain in compliance with all Award Terms and Conditions. These obligations include the following items in addition to those described above:

- 1. SAM.gov Requirements.** All eligible recipients are also required to have an active registration with the System for Award Management (SAM) (<https://www.sam.gov>). To ensure timely receipt of funding, Treasury has stated that Non-entitlement Units of Government (NEUs) who have not previously registered with SAM.gov may do so after receipt of the award, but before the submission of mandatory reporting.<sup>7</sup>
- 2. Recordkeeping Requirements.** Generally, your organization must maintain records and financial documents for five years after all funds have been expended or returned to Treasury, as outlined in paragraph 4.c. of the Award Terms and Conditions. Treasury may request transfer of records of long-term value at the end of such period. Wherever practicable, such records should be collected, transmitted, and stored in open and machine-readable formats.

Your organization must agree to provide or make available such records to Treasury upon request, and to any authorized oversight body, including but not limited to the Government Accountability Office (“GAO”), Treasury’s Office of Inspector General (“OIG”), and the Pandemic Relief Accountability Committee (“PRAC”).

- 3. Single Audit Requirements.** Recipients and subrecipients that expend more than \$750,000 in Federal awards during their fiscal year will be subject to an audit under the Single Audit Act and its implementing regulation at 2 CFR Part 200, Subpart F regarding audit requirements.<sup>8</sup> Recipients and subrecipients may also refer to the [Office of](#)

<sup>7</sup> See flexibility provided in [https://www.whitehouse.gov/wp-content/uploads/2021/03/M\\_21\\_20.pdf](https://www.whitehouse.gov/wp-content/uploads/2021/03/M_21_20.pdf).

<sup>8</sup> For-profit entities that receive SLFRF subawards are not subject to Single Audit requirements. However, they are subject to other audits as deemed necessary by authorized governmental entities, including Treasury, the GAO, the PRAC and the Treasury’s OIG.

[Management and Budget \(OMB\) Compliance Supplements for audits of federal funds and related guidance](#) and the [Federal Audit Clearinghouse](#) to see examples and single audit submissions.

4. **Civil Rights Compliance.** Recipients of Federal financial assistance from the Treasury are required to meet legal requirements relating to nondiscrimination and nondiscriminatory use of Federal funds. Those requirements include ensuring that entities receiving Federal financial assistance from the Treasury do not deny benefits or services, or otherwise discriminate on the basis of race, color, national origin (including limited English proficiency), disability, age, or sex (including sexual orientation and gender identity), in accordance with the following authorities: Title VI of the Civil Rights Act of 1964 (Title VI) Public Law 88-352, 42 U.S.C. 2000d-1 et seq., and the Department's implementing regulations, 31 CFR part 22; Section 504 of the Rehabilitation Act of 1973 (Section 504), Public Law 93-112, as amended by Public Law 93-516, 29 U.S.C. 794; Title IX of the Education Amendments of 1972 (Title IX), 20 U.S.C. 1681 et seq., and the Department's implementing regulations, 31 CFR part 28; Age Discrimination Act of 1975, Public Law 94-135, 42 U.S.C. 6101 et seq., and the Department implementing regulations at 31 CFR part 23.

In order to carry out its enforcement responsibilities under Title VI of the Civil Rights Act, Treasury will collect and review information from recipients to ascertain their compliance with the applicable requirements before and after providing financial assistance. Treasury's implementing regulations, 31 CFR part 22, and the Department of Justice (DOJ) regulations, [Coordination of Non-discrimination in Federally Assisted Programs, 28 CFR part 42](#), provide for the collection of data and information from recipients (see 28 CFR 42.406). Treasury may request that recipients submit data for post-award compliance reviews, including information such as a narrative describing their Title VI compliance status.

## Part 2: Reporting Guidance

There are three types of reporting requirements for the SLFRF program.

- **Interim Report:** Provide initial overview of status and uses of funding. This is a one-time report. [See Section A, page 13.](#)
- **Project and Expenditure Report:** Report on projects funded, expenditures, and contracts and subawards over \$50,000, and other information. [See Section B, page 15.](#)
- **Recovery Plan Performance Report:** The Recovery Plan Performance Report (the “Recovery Plan”) will provide information on the projects that large recipients are undertaking with program funding and how they plan to ensure program outcomes are achieved in an effective, efficient, and equitable manner. It will include key performance indicators identified by the recipient and some mandatory indicators identified by Treasury. The Recovery Plan will be posted on the website of the recipient as well as provided to Treasury. [See Section C, page 23.](#)

**Table 2: Reporting requirements by recipient type**

Recipient	Interim Report	Project and Expenditure Report	Recovery Plan Performance Report
States, U.S. territories, metropolitan cities and counties with a population that exceeds 250,000 residents	By August 31, 2021, with expenditures by category	By October 31, 2021, and then 30 days after the end of each quarter thereafter <sup>9</sup>	By August 31, 2021, and annually thereafter by July 31 <sup>10</sup>
Metropolitan cities and counties with a population below 250,000 residents which received more than \$5 million in SLFRF funding			Not required
Tribal Governments		By October 31, 2021, and then annually thereafter <sup>11</sup>	Not required
Metropolitan cities and counties with a population below 250,000 residents which received less than \$5 million in SLFRF funding			
NEUs	Not required		

The remainder of this document describes these reporting requirements. A users’ guide will be provided with additional information on how and where to submit required reports.

<sup>9</sup> Interim Final Rule Page 111

<sup>10</sup> Interim Final Rule page 112

<sup>11</sup> Interim Final Rule Page 111

## Comparison to reporting for the CRF

This guidance does not change the reporting or compliance requirements pertaining to the CRF. Reporting and compliance requirements for the SLFRF are separate from CRF reporting requirements. Changes from CRF to SLFRF include:

- **Project, Expenditure, and Subaward Reporting:** The SLFRF reporting requirements leverage the existing reporting regime used for CRF to foster continuity and provide many recipients with a familiar reporting mechanism. The data elements for the Project and Expenditure Report will largely mirror those used for CRF, with some minor exceptions noted in this guidance. The users' guide will describe how reporting for CRF funds will relate to reporting for the SLFRF.
- **Timing of Reports:** CRF reports were due within 10 days of each calendar quarter. SLFRF quarterly reporting will be due 30 days from quarter end.
- **Program and Performance Reporting:** The CRF reporting did not include any program or performance reporting. To build public awareness and accountability and allow Treasury to monitor compliance with eligible uses, some program and performance reporting is required.

### A. Interim Report

States, U.S. territories, metropolitan cities, counties, and Tribal governments are required to submit a one-time interim report with expenditures<sup>12</sup> by Expenditure Category from the date of award to July 31, 2021. The recipient will be required to enter obligations<sup>13</sup> and expenditures and, for each, select the specific expenditure category from the available options. See Appendix 1 for Expenditure Categories (EC).

#### 1. Required Programmatic Data

Recipients will also be required to provide the following information if they have or plan to have expenditures in the following Expenditure Categories.

- a. **Revenue replacement (EC 6.1<sup>14</sup>):** Key inputs into the revenue replacement formula in the Interim Final Rule and estimated revenue loss due to the Covid-19 public health emergency calculated using the formula in the Interim Final Rule as of December 31, 2020.
  - Base year general revenue (e.g., revenue in the last full fiscal year prior to the public health emergency)
  - Fiscal year end date
  - Growth adjustment used (either 4.1 percent or average annual general revenue growth over 3 years prior to pandemic)
  - Actual general revenue as of the twelve months ended December 31, 2020
  - Estimated revenue loss due to the Covid-19 public health emergency as of December 31, 2020
  - An explanation of how revenue replacement funds were allocated to government services (Note: additional instructions and/or template to be provided in users' guide)

<sup>12</sup> For purposes of reporting in the SLFRF portal, an expenditure is the amount that has been incurred as a liability of the entity (the service has been rendered or the good has been delivered to the entity).

<sup>13</sup> For purposes of reporting in the SLFRF portal, an obligation is an order placed for property and services, contracts and subawards made, and similar transactions that require payment.

<sup>14</sup> See Appendix 1 for the full Expenditure Category (EC) list. References to Expenditure Categories are identified by "EC" followed by numbers from the table in Appendix 1.

In calculating general revenue and the other items discussed above, recipients should use audited data if it is available. When audited data is not available, recipients are not required to obtain audited data if substantially accurate figures can be produced on an unaudited basis. Recipients should use their own data sources to calculate general revenue, and do not need to rely on revenue data published by the Census Bureau. Treasury acknowledges that due to differences in timing, data sources, and definitions, recipients' self-reported general revenue figures may differ from those published by the Census Bureau. Recipients may provide data on a cash, accrual, or modified accrual basis, provided that recipients are consistent in their choice of methodology throughout the covered period and until reporting is no longer required. Recipients' reporting should align with their own financial reporting.

In calculating general revenue, recipients should exclude all intergovernmental transfers from the federal government. This includes, but is not limited to, federal transfers made via a State to a locality pursuant to the CRF or SLFRF. To the extent federal funds are passed through States or other entities or intermingled with other funds, recipients should attempt to identify and exclude the federal portion of those funds from the calculation of general revenue on a best-efforts basis.

Consistent with the broad latitude provided to recipients to use funds for government services to the extent of reduction in revenue, recipients will be required to submit a description of services provided. This description may be in narrative or in another form, and recipients are encouraged to report based on their existing budget processes and to minimize administrative burden. For example, a recipient with \$100 in revenue replacement funds available could indicate that \$50 were used for law enforcement operating expenses and \$50 were used for pay-go building of sidewalk infrastructure. As discussed in the Interim Final Rule, these services can include a broad range of services but may not be used directly for pension deposits or debt service.

Reporting requirements will not require tracking the indirect effects of Fiscal Recovery Funds, apart from the restrictions on use of Fiscal Recovery Funds to offset a reduction in net tax revenue. In addition, recipients must indicate that Fiscal Recovery Funds were not used to make a deposit in a pension fund.

- b. Distributions to NEUs - States and territories only (EC 7.4): Information on SLFRF distributions to eligible NEUs. Each State and territory will be asked to provide an update on distributions to individual NEUs, including whether the NEU has (1) received funding; (2) declined funding and requested a transfer to the State under Section 603(c)(4) of the Act; or (3) not taken action on its funding. States and territories should be prepared to report on their information, including the following:
- NEU name
  - NEU DUNS number
  - NEU Taxpayer Identification Number (TIN)
  - NEU Recipient Number (a unique identification code for each NEU assigned by the State to the NEU as part of the request for funding)
  - NEU contact information (e.g., address, point of contact name, point of contact email address, and point of contact phone number)
  - NEU authorized representative name and email address
  - Initial allocation and, if applicable, subsequent allocation to the NEU (before application of the 75 percent cap)
  - Total NEU reference budget (as submitted by the NEU to the State as part of the request for funding)

- Amount of the initial and, if applicable, subsequent allocation above 75 percent of the NEU's reference budget which will be returned to Treasury
- Payment amount(s)
- Payment date(s)

For each eligible NEU that declined funding and requested a transfer to the State under Section 603(c)(4), the State must also attach a form signed by the NEU, as detailed in the [Guidance on Distributions of Funds to Non-Entitlement Units of Local Government](#).

States with “weak” minor civil divisions (i.e., Illinois, Indiana, Kansas, Missouri, Nebraska, North Dakota, Ohio, and South Dakota) should also list any minor civil divisions that the State deemed ineligible.

## B. Project and Expenditure Report

All recipients are required to submit Project and Expenditure Reports.

### 1. Quarterly Reporting

The following recipients are required to submit quarterly Project and Expenditure Reports:

- States, U.S. territories, and Tribal governments
- Metropolitan cities and counties that received more than \$5 million in SLFRF funding

For these recipients, the initial quarterly Project and Expenditure Report will cover two calendar quarters from the date of award to September 30, 2021 and must be submitted to Treasury by October 31, 2021. The subsequent quarterly reports will cover one calendar quarter and must be submitted to Treasury within 30 calendar days after the end of each calendar quarter. Quarterly reports are not due concurrently with applicable annual reports. The table below summarizes the quarterly report timelines:

Report	Year	Quarter	Period Covered	Due Date
1	2021	2 and 3	Award Date – September 30	October 31, 2021
2	2021	4	October 1 – December 31	January 31, 2022
3	2022	1	January 1 – March 31	April 30, 2022
4	2022	2	April 1 – June 30	July 31, 2022
5	2022	3	July 1 – September 30	October 31, 2022
6	2022	4	October 1 – December 31	January 31, 2023
7	2023	1	January 1 – March 31	April 30, 2023
8	2023	2	April 1 – June 30	July 31, 2023
9	2023	3	July 1 – September 30	October 31, 2023
10	2023	4	October 1 – December 31	January 31, 2024
11	2024	1	January 1 – March 31	April 30, 2024
12	2024	2	April 1 – June 30	July 31, 2024
13	2024	3	July 1 – September 30	October 31, 2024
14	2024	4	October 1 – December 31	January 31, 2025
15	2025	1	January 1 – March 31	April 30, 2025
16	2025	2	April 1 – June 30	July 31, 2025
17	2025	3	July 1 – September 30	October 31, 2025
18	2025	4	October 1 – December 31	January 31, 2026
19	2026	1	January 1 – March 31	April 30, 2026
20	2026	2	April 1 – June 30	July 31, 2026

Report	Year	Quarter	Period Covered	Due Date
21	2026	3	July 1 – September 30	October 31, 2026
22	2026	4	October 1 – December 31	March 31, 2027

## 2. Annual Reporting

The following recipients are required to submit annual Project and Expenditure Reports:

- Metropolitan cities and counties that received less than \$5 million in SLFRF funding.
- NEUs. To facilitate reporting, each NEU will need a NEU Recipient Number. This is a unique identification code for each NEU assigned by the State to the NEU as part of its request for funding.

For these recipients, the initial Project and Expenditure Report will cover from the date of award to September 30, 2021 and must be submitted to Treasury by October 31, 2021. The subsequent annual reports will cover one calendar year and must be submitted to Treasury by October 31. The table below summarizes the report timelines:

Report	Period Covered	Due Date
1	Award Date – September 30, 2021	October 31, 2021
2	October 1, 2021 – September 30, 2022	October 31, 2022
3	October 1, 2022 – September 30, 2023	October 31, 2023
4	October 1, 2023 – September 30, 2024	October 31, 2024
5	October 1, 2024 – September 30, 2025	October 31, 2025
6	October 1, 2025 – September 30, 2026	October 31, 2026
7	October 1, 2026 – December 31, 2026	March 31, 2027

## 3. Required Information

The following information will be required in Project and Expenditure Reports:

- a. **Projects:** Provide information on all SLFRF funded projects. Projects are new or existing eligible government services or investments funded in whole or in part by SLFRF funding. For each project, the recipient will be required to enter the project name, identification number (created by the recipient), project expenditure category (see Appendix 1), description, and status of completion. Project descriptions must describe the project in sufficient detail to provide understanding of the major activities that will occur, and will be required to be between 50 and 250 words. Projects should be defined to include only closely related activities directed toward a common purpose. In particular, recipients should review the Required Programmatic Data described below and define their projects at a sufficient level of granularity to report these metrics for a reasonably specific activity or set of activities in each project.

Note: For each project, the recipient will be asked to select the appropriate Expenditure Category based on the scope of the project (see Appendix 1). Projects should be scoped to align to a single Expenditure Category. For select Expenditure Categories, the recipient will also be asked to provide additional programmatic data (described further below).

- b. **Expenditures:** Once a project is entered the recipient will be able to report on the project's obligations and expenditures. Recipients will be asked to report:
- Current period obligation
  - Cumulative obligation
  - Current period expenditure
  - Cumulative expenditure

- c. **Project Status:** Once a project is entered the recipient will be asked to report on project status each reporting period, in four categories:
- Not Started
  - Completed less than 50 percent
  - Completed 50 percent or more
  - Completed
- d. **Project Demographic Distribution:** Recognizing the disproportionate impact of the pandemic-related recession on low-income communities, recipients must report whether certain types of projects<sup>15</sup> are targeted to economically disadvantaged communities, as defined by HUD's [Qualified Census Tract](#).<sup>16</sup> Recipients will be asked to identify whether or not the project is serving an economically disadvantaged community. To minimize the administrative burden on recipients while ensuring that this important aspect of program performance is tracked, recipients may assume that the funds for a project count as being targeted towards economically disadvantaged communities if the project funds are spent on:
- A program or service is provided at a physical location in a Qualified Census Tract (for multi-site projects, if a majority of sites are within Qualified Census Tracts);
  - A program or service where the primary intended beneficiaries live within a Qualified Census Tract;
  - A program or service for which the eligibility criteria are such that the primary intended beneficiaries earn less than 60 percent of the median income for the relevant jurisdiction (e.g., State, county, metropolitan area, or other jurisdiction); or
  - A program or service for which the eligibility criteria are such that over 25 percent of intended beneficiaries are below the federal poverty line.

Recipients may use reasonable estimates to determine if a project meets one of these criteria, including identifying the intended beneficiaries of a program or service in terms of income characteristics, geographic location, or otherwise estimating the beneficiaries of a program based on its eligibility criteria. Recipients do not need to track information on each individual beneficiary to make the determination of whether or not the project is serving an economically disadvantaged community. If a recipient is unable to measure economic characteristics of the primary intended beneficiaries of a program or service due to data limitations or for other reasons, that program or service may not be counted as targeted to economically disadvantaged communities. Treasury recognizes that in some circumstances, recipients may fund eligible programs or services that benefit economically disadvantaged communities but may lack adequate data to assess conclusively that such a program or service is targeted to economically disadvantaged communities based on the criteria described above.

- e. **Subawards:** Each recipient shall also provide detailed obligation and expenditure information for any contracts and grants awarded, loans issued, transfers made to other government entities, and direct payments made by the recipient that are greater than or equal to \$50,000.

---

<sup>15</sup> Specifically recipients must report this information for projects in the Expenditure Categories that are marked with "A" in the expenditure category listing in Appendix 1 of this guidance

<sup>16</sup> HUD defines as a QCT as having "50 percent of households with incomes below 60 percent of the Area Median Gross Income (AMGI) or have a poverty rate of 25 percent or more." To view median income area for their jurisdiction, recipients may visit the U.S. Census [website](#) on median incomes and select the geography for their jurisdiction and relevant unit of measurement (household or individual) for the project.

Recipients do not also need to submit separate monthly subaward reports to FSRS.gov as required pursuant to the 2 CFR Part 170, Appendix A award term regarding reporting subaward and executive compensation, which is included in the SLFRF Award Terms and Conditions. Treasury will submit this reporting on behalf of recipients using the \$50,000 reporting threshold, timing, and data elements discussed in this guidance. If recipients choose to continue reporting to FSRS.gov in addition to reporting directly to Treasury on these funds, they may do so and will be asked to notify Treasury as part of their quarterly submission.

In general, recipients will be asked to provide the following information for each Contract, Grant, Loan, Transfer, or Direct Payment greater than or equal to \$50,000:

- Subrecipient identifying and demographic information (e.g., DUNS number and location)
- Award number (e.g., Award number, Contract number, Loan number)
- Award date, type, amount, and description
- Award payment method (reimbursable or lump sum payment(s))
- For loans, expiration date (date when loan expected to be paid in full)
- Primary place of performance
- Related project name(s)
- Related project identification number(s) (created by the recipient)
- Period of performance start date
- Period of performance end date
- Quarterly obligation amount
- Quarterly expenditure amount
- Project(s)
- Additional programmatic performance indicators for select Expenditure Categories (see below)

Aggregate reporting is required for contracts, grants, transfers made to other government entities, loans, direct payments, and payments to individuals that are below \$50,000. This information will be accounted for by expenditure category at the project level.

As required by the 2 CFR Part 170, Appendix A award term regarding reporting subaward and executive compensation, recipients must also report the names and total compensation of their five most highly compensated executives and their subrecipients' executives for the preceding completed fiscal year if (1) the recipient received 80 percent or more of its annual gross revenues from Federal procurement contracts (and subcontracts) and Federal financial assistance subject to the Transparency Act, as defined at 2 CFR 170.320 (and subawards), and received \$25,000,000 or more in annual gross revenues from Federal procurement contracts (and subcontracts) and Federal financial assistance subject to the Transparency Act (and subawards), and (2) if the information is not otherwise public. In general, most SLFRF Recipients are governmental entities with executive salaries that are already disclosed, so no additional information must be reported. The recipient is responsible for the subrecipients' compliance with registering and maintaining an updated profile on SAM.gov.

- f. **Civil Rights Compliance:** Treasury will request information on recipients' compliance with Title VI of the Civil Rights Act of 1964 on an annual basis. This information may include a narrative describing the recipient's compliance with Title VI, along with other questions and assurances.

g. **Required Programmatic Data (other than infrastructure projects):** For all projects listed under the following Expenditure Categories (see Appendix 1), the information listed must be provided in each report.

1. **Payroll for Public Health and Safety Employees (EC 1.9):**

- Number of government FTEs responding to COVID-19 supported under this authority

2. **Household Assistance (EC 2.1-2.5):**

- Brief description of structure and objectives of assistance program(s) (e.g., nutrition assistance for low-income households)
- Number of individuals served (by program if recipient establishes multiple separate household assistance programs)
- Brief description of recipient's approach to ensuring that aid to households responds to a negative economic impact of Covid-19, as described in the Interim Final Rule

3. **Small Business Economic Assistance (EC 2.9):**

- Brief description of the structure and objectives of assistance program(s) (e.g., grants for additional costs related to Covid-19 mitigation)
- Number of small businesses served (by program if recipient establishes multiple separate small businesses assistance programs)
- Brief description of recipient's approach to ensuring that aid to small businesses responds to a negative economic impact of COVID-19, as described in the Interim Final Rule

4. **Aid to Travel, Tourism, and Hospitality or Other Impacted Industries (EC 2.11-2.12):**

- If aid is provided to industries other than travel, tourism, and hospitality (EC 2.12), a description of pandemic impact on the industry and rationale for providing aid to the industry
- Brief narrative description of how the assistance provided responds to negative economic impacts of the COVID-19 pandemic
- For each subaward:
  - Sector of employer (Note: additional detail, including list of sectors to be provided in a users' guide)
  - Purpose of funds (e.g., payroll support, safety measure implementation)

5. **Rehiring Public Sector Staff (EC 2.14):**

- Number of FTEs rehired by governments under this authority

6. **Education Assistance (EC 3.1-3.5):**

- The National Center for Education Statistics ("NCES") School ID or NCES District ID. List the School District if all schools within the school district received some funds. If not all schools within the school district received funds, list the School ID of the schools that received funds. These can allow evaluators to link data from the NCES to look at school-level demographics and, eventually, student performance.<sup>17</sup>

---

<sup>17</sup> For more information on NCES identification numbers see <https://nces.ed.gov/ccd/districtsearch/> (districts) and <https://nces.ed.gov/ccd/schoolsearch/> (schools).

7. Premium Pay (both Public Sector EC 4.1 and Private Sector EC 4.2):

- List of sectors designated as critical to the health and well-being of residents by the chief executive of the jurisdiction, if beyond those included in the Interim Final Rule (Note: a list of sectors will be provided in the forthcoming users' guide).
- Number of workers to be served
- Employer sector for all subawards to third-party employers (i.e., employers other than the State, local, or Tribal government) (Note: a list of sectors will be provided in the forthcoming users' guide).
- For groups of workers (e.g., an operating unit, a classification of worker, etc.) or, to the extent applicable, individual workers, for whom premium pay would increase total pay above 150 percent of their residing State's average annual wage, or their residing county's<sup>18</sup> average annual wage, whichever is higher, on an annual basis:
  - A brief written narrative justification of how the premium pay or grant is responsive to workers performing essential work during the public health emergency. This could include a description of the essential workers' duties, health or financial risks faced due to COVID-19, and why the recipient government determined that the premium pay was responsive to workers performing essential work during the pandemic. This description should not include personally identifiable information; when addressing individual workers, recipients should be careful not to include this information. Recipients may consider describing the workers' occupations and duties in a general manner as necessary to protect privacy.

8. Revenue replacement (EC 6.1):

Under the Interim Final Rule, recipients calculate revenue loss using data as of four discrete points during the program: December 31, 2020, December 31, 2021, December 31, 2022, and December 31, 2023. Revenue loss calculated as of December 31, 2020 will be reported in the Interim Report, as described above. For future calculation dates, revenue loss will be reported only in the Quarter 4 reports due January 31, 2022, January 31, 2023, and January 31, 2024. Reporting on revenue loss should include:

- General revenue collected over the past 12 months as of the most recent calculation date, as outlined in the Interim Final Rule (for example, for the January 31, 2022 report, recipients should provide 12 month general revenue as of December 31, 2021);
- Calculated revenue loss due to the Covid-19 public health emergency; and
- An explanation of how the revenue replacement funds were allocated to government services (note: additional instructions and/or template to be provided in user guide).

In calculating general revenue and the revenue loss due to the COVID-19 public health emergency, recipients should follow the same guidance as described above for the Interim Report.

- h. Required Programmatic Data for Infrastructure Projects (EC 5): For all projects listed under the Water, Sewer, and Broadband Expenditure Categories (see Appendix 1), more detailed project-level information is required. Each project will be required to report expenditure data as described above, but will also report the following information:

---

<sup>18</sup> *County* means a county, parish, or other equivalent county division (as defined by the Census Bureau). See 31 CFR 35.3.

1. All infrastructure projects (EC 5):

- Projected/actual construction start date (month/year)
- Projected/actual initiation of operations date (month/year)
- Location (for broadband, geospatial location data)
- For projects over \$10 million:
  - a. A recipient may provide a certification that, for the relevant project, all laborers and mechanics employed by contractors and subcontractors in the performance of such project are paid wages at rates not less than those prevailing, as determined by the U.S. Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code (commonly known as the “Davis-Bacon Act”), for the corresponding classes of laborers and mechanics employed on projects of a character similar to the contract work in the civil subdivision of the State (or the District of Columbia) in which the work is to be performed, or by the appropriate State entity pursuant to a corollary State prevailing-wage-in-construction law (commonly known as “baby Davis-Bacon Acts”). If such certification is not provided, a recipient must provide a project employment and local impact report detailing:
    - The number of employees of contractors and sub-contractors working on the project;
    - The number of employees on the project hired directly and hired through a third party;
    - The wages and benefits of workers on the project by classification; and
    - Whether those wages are at rates less than those prevailing.<sup>19</sup>Recipients must maintain sufficient records to substantiate this information upon request.
  - b. A recipient may provide a certification that a project includes a project labor agreement, meaning a pre-hire collective bargaining agreement consistent with section 8(f) of the National Labor Relations Act (29 U.S.C. 158(f)). If the recipient does not provide such certification, the recipient must provide a project workforce continuity plan, detailing:
    - How the recipient will ensure the project has ready access to a sufficient supply of appropriately skilled and unskilled labor to ensure high-quality construction throughout the life of the project;
    - How the recipient will minimize risks of labor disputes and disruptions that would jeopardize timeliness and cost-effectiveness of the project; and
    - How the recipient will provide a safe and healthy workplace that avoids delays and costs associated with workplace illnesses, injuries, and fatalities;
    - Whether workers on the project will receive wages and benefits that will secure an appropriately skilled workforce in the context of the local or regional labor market; and
    - Whether the project has completed a project labor agreement.
  - c. Whether the project prioritizes local hires.
  - d. Whether the project has a Community Benefit Agreement, with a description of any such agreement.

---

<sup>19</sup> As determined by the U.S. Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code (commonly known as the “Davis-Bacon Act”), for the corresponding classes of laborers and mechanics employed on projects of a character similar to the contract work in the civil subdivision of the State (or the District of Columbia) in which the work is to be performed.

2. Water and sewer projects (EC 5.1-5.15):
  - National Pollutant Discharge Elimination System (NPDES) Permit Number (if applicable; for projects aligned with the Clean Water State Revolving Fund)
  - Public Water System (PWS) ID number (if applicable; for projects aligned with the Drinking Water State Revolving Fund)
  
3. Broadband projects (EC 5.16-5.17):
  - Speeds/pricing tiers to be offered, including the speed/pricing of its affordability offering
  - Technology to be deployed
  - Miles of fiber
  - Cost per mile
  - Cost per passing
  - Number of households (broken out by households on Tribal lands and those not on Tribal lands) projected to have increased access to broadband meeting the minimum speed standards in areas that previously lacked access to service of at least 25 Mbps download and 3 Mbps upload
    - Number of households with access to minimum speed standard of reliable 100 Mbps symmetrical upload and download
    - Number of households with access to minimum speed standard of reliable 100 Mbps download and 20 Mbps upload
  - Number of institutions and businesses (broken out by institutions on Tribal lands and those not on Tribal lands) projected to have increased access to broadband meeting the minimum speed standards in areas that previously lacked access to service of at least 25 Mbps download and 3 Mbps upload, in each of the following categories: business, small business, elementary school, secondary school, higher education institution, library, healthcare facility, and public safety organization
    - Specify the number of each type of institution with access to the minimum speed standard of reliable 100 Mbps symmetrical upload and download; and
    - Specify the number of each type of institution with access to the minimum speed standard of reliable 100 Mbps download and 20 Mbps upload
  
- i. Distributions to NEUs - States and territories only (EC 7.4): Information on SLFRF distributions to eligible NEUs. Each State and territory will be asked to provide an update on distributions to individual NEUs, including whether the NEU has (1) received funding; (2) declined funding and requested a transfer to the State under Section 603(c)(4) of the Act; or (3) not taken action on its funding. States and territories should be prepared to report on their information, including the following:
  - NEU name
  - NEU DUNS number
  - NEU Taxpayer Identification Number (TIN)
  - NEU Recipient Number (a unique identification code for each NEU assigned by the State to the NEU as part of the request for funding)
  - NEU contact information (e.g., address, point of contact name, point of contact email address, and point of contact phone number)
  - NEU authorized representative name and email address
  - Initial allocation and, if applicable, subsequent allocation to the NEU (before application of the 75 percent cap)
  - Total NEU reference budget (as submitted by the NEU to the State as part of the request for funding)
  - Amount of the initial and, if applicable, subsequent allocation above 75 percent of the NEU's reference budget which will be returned to Treasury
  - Payment amount(s)
  - Payment date(s)

For each eligible NEU that declined funding and requested a transfer to the State under Section 603(c)(4), the State must also attach a form signed by the NEU, as detailed in the [Guidance on Distributions of Funds to Non-Entitlement Units of Local Government](#).

States with “weak” minor civil divisions (i.e., Illinois, Indiana, Kansas, Missouri, Nebraska, North Dakota, Ohio, and South Dakota) should also list any minor civil divisions that the State deemed ineligible.

- j. **NEU Documentation (NEUs only):** Each NEU will also be asked to provide the following information with their first report submitted by October 31, 2021:
  - Copy of the signed award terms and conditions agreement (which was signed and submitted to the State as part of the request for funding)
  - Copy of the signed assurances of compliance with Title VI of the Civil Rights Act of 1964 (which was signed and submitted to the State as part of the request for funding)
  - Copy of actual budget documents validating the top-line budget total provided to the State as part of the request for funding

### C. Recovery Plan Performance Report

States, territories, metropolitan cities, and counties with a population that exceeds 250,000 residents will also be required to publish and submit to Treasury a Recovery Plan performance report (“Recovery Plan”). Each Recovery Plan must be posted on the public-facing website of the recipient by the same date the recipient submits the report to Treasury. This reporting requirement includes uploading a link to the publicly available document report along with providing data in the Treasury reporting portal.

The Recovery Plan will provide the public and Treasury information on the projects recipients are undertaking with program funding and how they are planning to ensure program outcomes are achieved in an effective, efficient, and equitable manner. While this guidance outlines some minimum requirements for the Recovery Plan, each recipient is encouraged to add information to the plan they feel is appropriate to provide information to their constituents on efforts they are taking to respond to the pandemic and promote economic recovery. Each jurisdiction may determine the general form and content of the Recovery Plan, as long as it includes the minimum information determined by Treasury. Treasury will provide a recommended template but recipients may modify this template as appropriate for their jurisdiction. The Recovery Plan will include key performance indicators identified by the recipient and some mandatory indicators identified by Treasury.

The initial Recovery Plan will cover the period from the date of award to July 31, 2021 and must be submitted to Treasury by August 31, 2021. Thereafter, the Recovery Plan will cover a 12-month period and recipients will be required to submit the report to Treasury within 30 days after the end of the 12-month period (by July 31). The table below summarizes the report timelines:

Annual Report	Period Covered	Due Date
1	Award Date – July 31, 2021	August 31, 2021
2	July 1, 2021 – June 30, 2022	July 31, 2022
3	July 1, 2022 – June 30, 2023	July 31, 2023
4	July 1, 2023 – June 30, 2024	July 31, 2024
5	July 1, 2024 – June 30, 2025	July 31, 2025
6	July 1, 2025 – June 30, 2026	July 31, 2026
7	July 1, 2026 – December 31, 2026	March 31, 2027

The Recovery Plan will include, at a minimum, the following information:

### 1. Executive Summary

Provide a high-level overview of the jurisdiction's intended and actual uses of funding including, but not limited to: the jurisdiction's plan for use of funds to promote a response to the pandemic and economic recovery, key outcome goals, progress to date on those outcomes, and any noteworthy challenges or opportunities identified during the reporting period.

### 2. Uses of Funds

Describe in further detail your jurisdiction's intended and actual uses of the funds, such as how your jurisdiction's approach would help support a strong and equitable recovery from the COVID-19 pandemic and economic downturn. Describe any strategies employed to maximize programmatic impact and effective, efficient, and equitable outcomes. Given the broad eligible uses of funds and the specific needs of the jurisdiction, please also explain how the funds would support the communities, populations, or individuals in your jurisdiction. Your description should address how you are promoting each of the following, to the extent they apply:

- a. Public Health (EC 1): As relevant, describe how funds are being used to respond to COVID-19 and the broader health impacts of COVID-19 and the COVID-19 public health emergency.
- b. Negative Economic Impacts (EC 2): As relevant, describe how funds are being used to respond to negative economic impacts of the COVID-19 public health emergency, including to households and small businesses.
- c. Services to Disproportionately Impacted Communities (EC 3): As relevant, describe how funds are being used to provide services to communities disproportionately impacted by the COVID-19 public health emergency.
- d. Premium Pay (EC 4): As relevant, describe the approach, goals, and sectors or occupations served in any premium pay program. Describe how your approach prioritizes low-income workers.
- e. Water, sewer, and broadband infrastructure (EC 5): Describe the approach, goals, and types of projects being pursued, if pursuing.
- f. Revenue Replacement (EC 6): Describe the loss in revenue due to the COVID-19 public health emergency and how funds have been used to provide government services.

Where appropriate, recipients should also include information on your jurisdiction's use (or planned use) of other federal recovery funds including other programs under the American Rescue Plan such as the Emergency Rental Assistance, Housing Assistance, and so forth, to provide broader context on the overall approach for pandemic recovery.

### 3. Promoting equitable outcomes

Describe efforts to promote equitable outcomes, including how programs were designed with equity in mind. Please include in your description how your jurisdiction will consider and measure equity at the various stages of the program, including:

- a. Goals: Are there particular historically underserved, marginalized, or adversely affected groups that you intend to serve within your jurisdiction?
- b. Awareness: How equal and practical is the ability for residents or businesses to become aware of the services funded by the SLFRF?
- c. Access and Distribution: Are there differences in levels of access to benefits and services across groups? Are there administrative requirements that result in disparities in ability to complete applications or meet eligibility criteria?

- d. **Outcomes:** Are intended outcomes focused on closing gaps, reaching universal levels of service, or disaggregating progress by race, ethnicity, and other equity dimensions where relevant for the policy objective?

Treasury encourages uses of funds that promote strong, equitable growth, including racial equity. Please describe how your jurisdiction's planned or current use of funds prioritizes economic and racial equity as a goal, names specific targets intended to produce meaningful equity results at scale, and articulates the strategies to achieve those targets. In addition, please explain how your jurisdiction's overall equity strategy translates into the specific services or programs offered by your jurisdiction in the following Expenditure Categories:

- a. **Negative Economic Impacts (EC 2):** assistance to households, small businesses, and non-profits to address impacts of the pandemic, which have been most severe among low-income populations. This includes assistance with food, housing, and other needs; employment programs for people with barriers to employment who faced negative economic impacts from the pandemic (such as residents of low-income neighborhoods, minorities, disconnected youth, the unemployed, formerly incarcerated people, veterans, and people with disabilities); and other strategies that provide disadvantaged groups with access to education, jobs, and opportunity.
- b. **Services to Disproportionately Impacted Communities (EC 3):** services to address health disparities and the social determinants of health, build stronger neighborhoods and communities (e.g., affordable housing), address educational disparities (e.g., evidence-based tutoring, community schools, and academic, social-emotional, and mental health supports for high poverty schools), and promote healthy childhood environments (e.g., home visiting, child care).

The initial report must describe efforts to date and intended outcomes to promote equity. Each annual report thereafter must provide an update, using qualitative and quantitative data, on how the recipients' approach achieved or promoted equitable outcomes or progressed against equity goals during the performance period. Please also describe any constraints or challenges that impacted project success in terms of increasing equity. In particular, this section must describe the geographic and demographic distribution of funding, including whether it is targeted toward traditionally marginalized communities.

For the purposes of the SLFRF, equity is defined in the [Executive Order 13985 On Advancing Racial Equity and Support for Underserved Communities Through the Federal Government](#), as issued on January 20, 2021.

#### **4. Community Engagement**

Please describe how your jurisdiction's planned or current use of funds incorporates written, oral, and other forms of input that capture diverse feedback from constituents, community-based organizations, and the communities themselves. Where relevant, this description must include how funds will build the capacity of community organizations to serve people with significant barriers to services, including people of color, people with low incomes, limited English proficient populations, and other traditionally underserved groups.

#### **5. Labor Practices**

Describe workforce practices on any infrastructure projects being pursued (EC 5). How are projects using strong labor standards to promote effective and efficient delivery of high-quality infrastructure projects while also supporting the economic recovery through strong employment opportunities for workers? For example, report whether any of the following practices are being utilized: project labor agreements, community benefits agreements, prevailing wage requirements, and local hiring.

## 6. Use of Evidence

The Recovery Plan should identify whether SLFRF funds are being used for evidence-based interventions<sup>20</sup> and/or if projects are being evaluated through rigorous program evaluations that are designed to build evidence. Recipients must briefly describe the goals of the project, and the evidence base for the interventions funded by the project. Recipients must specifically identify the dollar amount of the total project spending that is allocated towards evidence-based interventions for each project in the Public Health (EC 1), Negative Economic Impacts (EC 2), and Services to Disproportionately Impacted Communities (EC 3) Expenditure Categories.<sup>21</sup>

Recipients are exempt from reporting on evidence-based interventions in cases where a program evaluation is being conducted. Recipients are encouraged to use relevant evidence Clearinghouses, among other sources, to assess the level of evidence for their interventions and identify evidence-based models that could be applied in their jurisdiction; such evidence clearinghouses include the U.S. Department of Education's [What Works Clearinghouse](#), the U.S. Department of Labor's [CLEAR](#), and the [Childcare & Early Education Research Connections](#) and the [Home Visiting Evidence of Effectiveness](#) clearinghouses from Administration for Children and Families, as well as other clearinghouses relevant to particular projects conducted by the recipient. In such cases where a recipient is conducting a program evaluation in lieu of reporting the amount of spending on evidence-based interventions, they must describe the evaluation design including whether it is a randomized or quasi-experimental design; the key research questions being evaluated; whether the study has sufficient statistical power to disaggregate outcomes by demographics; and the timeframe for the completion of the evaluation (including a link to completed evaluation if relevant).<sup>22</sup> Once the evaluation has been completed, recipients must post the evaluation publicly and link to the completed evaluation in the Recovery Plan. Once an evaluation has been completed (or has sufficient interim findings to determine the efficacy of the intervention), recipients should determine whether the spending for the evaluated interventions should be counted towards the dollar amount categorized as evidence-based for the relevant project.

For all projects, recipients may be selected to participate in a national evaluation, which would study their project along with similar projects in other jurisdictions that are focused on the same set of outcomes. In such cases, recipients may be asked to share information and data that is needed for the national evaluation.

Recipients are encouraged to consider how a Learning Agenda, either narrowly focused on SLFRF or broadly focused on the recipient's broader policy agenda, could support their overarching evaluation efforts in order to create an evidence-building strategy for their jurisdiction.<sup>23</sup>

Appendix 2 contains additional information on evidence-based interventions for the purposes of the Recovery Plan.

---

<sup>20</sup>As noted in Appendix 2, evidence-based refers to interventions with strong or moderate levels of evidence.

<sup>21</sup> Of note, recipients are only required to report the amount of the total funds that are allocated to evidence-based interventions in the areas of Public Health, Negative Economic Impacts, and Services to Disproportionately Impacted Communities that are marked by an asterisk in Appendix 1: Expenditure Categories.

<sup>22</sup> For more information on the required standards for program evaluation, see [OMB M-20-12](#).

<sup>23</sup> For more information on learning agendas, please see [OMB M-19-23](#)

## **7. Table of Expenses by Expenditure Category**

Please include a table listing the amount of funds used in each Expenditure Category (See Appendix 1). The table should include cumulative expenses to date within each category, and the additional amount spent within each category since the last annual Recovery Plan.

## **8. Project Inventory**

List the name and provide a brief description of all SLFRF funded projects. Projects are new or existing eligible government services or investments funded in whole or in part by SLFRF funding. For each project, include the project name, funding amount, identification number (created by the recipient and used thereafter in the quarterly Program and Expenditure Report), project Expenditure Category (see Appendix 1), and a description of the project which includes an overview of the main activities of the project, the approximate timeline, primary delivery mechanisms and partners, if applicable, and intended outcomes. Include a link to the website of the project if available. This information will provide context and additional detail for the information reported quarterly in the Project and Expenditure Report.

For infrastructure investment projects (EC 5), project-level reporting will be more detailed, as described for the Project and Expenditure Report above. Projects in this area may be grouped by Expenditure Category if needed, with further detail (such as the specific project name and identification number) provided in the Project and Expenditure Report. For infrastructure projects, descriptions should note how the project contributes to addressing climate change.

## **9. Performance Report**

The Recovery Plan must include key performance indicators for the major SLFRF funded projects undertaken by the recipient. The recipient has flexibility in terms of how this information is presented in the Recovery Plan, and may report key performance indicators for each project, or may group projects with substantially similar goals and the same outcome measures. In some cases, the recipient may choose to include some indicators for each individual project as well as crosscutting indicators.

Performance indicators should include both output and outcome measures. Output measures, such as number of students enrolled in an early learning program, provide valuable information about the early implementation stages of a project. Outcome measures, such as the percent of students reading on grade level, provide information about whether a project is achieving its overall goals. Recipients are encouraged to use logic models<sup>24</sup> to identify their output and outcome measures. While the initial report will focus heavily on early output goals, recipients must include the related outcome goal for each project and provide updated information on achieving these outcome goals in annual reports. In cases where recipients are conducting a program evaluation for a project (as described above), the outcome measures in the performance report should be aligned with those being evaluated in the program. To support their performance measurement and program improvement efforts, recipients are permitted to use funds to make improvements to data or technology infrastructure and data analytics, as well as program evaluations.

## **10. Required Performance Indicators and Programmatic Data**

While recipients have discretion on the full suite of performance indicators to include, a number of mandatory performance indicators and programmatic data must be included. These are necessary to allow Treasury to conduct oversight as well as understand and aggregate program outcomes across recipients. This section provides an overview of the mandatory performance indicators and programmatic data. This information may be included in each recipient's Recovery Plan as they determine most appropriate, including combining with the

---

<sup>24</sup> A logic model is a tool that depicts the intended links between program investments and outcomes, specifically the relationships among the resources, activities, outputs, outcomes, and impact of a program.

section above, but this data will also need to be entered directly into the Treasury reporting portal. Below is a list of required data for each Expenditure Category:

- a. Household Assistance (EC 2.2 & 2.5) and Housing Support (EC 3.10-3.12):
  - Number of people or households receiving eviction prevention services (including legal representation)
  - Number of affordable housing units preserved or developed
- b. Negative Economic Impacts (EC 2):
  - Number of workers enrolled in sectoral job training programs
  - Number of workers completing sectoral job training programs
  - Number of people participating in summer youth employment programs
- c. Education Assistance (EC 3.1-3.5):
  - Number of students participating in evidence-based tutoring programs<sup>25</sup>
- d. Healthy Childhood Environments (EC 3.6-3.9):
  - Number of children served by childcare and early learning (pre-school/pre-K/ages 3-5)
  - Number of families served by home visiting

The initial report should include the key indicators above. Each annual report thereafter should include updated data for the performance period as well as prior period data, and a brief narrative adding any additional context to help the reader interpret the results and understand the any changes in performance indicators over time. To the extent possible, Treasury also encourages recipients to provide data disaggregated by race, ethnicity, gender, income, and other relevant factors.

#### **11. Ineligible Activities: Tax Offset Provision (States and territories only)**

The following information is required for Treasury to ensure SLFRF funding is not used for ineligible activities.

In each reporting year, States and territories will report certain items related to the Tax Offset Provision 31 CFR 35.8, as detailed below. As indicated in the Interim Final Rule, Treasury is seeking comment on reporting requirements related to the Tax Offset Provision, including ways to better rely on information already produced by States and territories and to minimize burden.

The terms “reporting year,” “baseline,” “covered change,” “net reduction in total spending,” and “tax revenue” are defined in the Interim Final Rule, 31 CFR 35.3. For purposes of calculating a net reduction in total spending, total spending for the fiscal year ending 2019 should be reported on an inflation-adjusted basis, consistent with the Interim Final Rule, 31 CFR 35.3. Similarly, for purposes of calculating baseline, tax revenue for the fiscal year 2019 should be reported on an inflation-adjusted basis, consistent with the Interim Final Rule, 31 CFR 35.3.

For purposes of reporting actual tax revenue and calculating tax revenue for the fiscal year ending 2019,<sup>26</sup> (a) if available, recipients should report information using audited financials and (b) recipients may provide data on a cash, accrual, or modified accrual basis, but must be consistent in their approach across all reporting periods. Similarly, for purposes of calculating

---

<sup>25</sup> For more information on evidence-based tutoring programs, refer to the U.S. Department of Education’s [2021 ED COVID-19 Handbook \(Volume 2\)](#), which summarizes research on evidence-based tutoring programs (see the bottom of page 20).

<sup>26</sup> Tax revenue for fiscal year ending 2019 is relevant for calculating the recipient’s baseline.

a net reduction in total spending, recipients should report data using audited financials where available.

a. Revenue-reducing Covered Changes:

For each reporting year, a recipient must report the value of covered changes that the recipient predicts will have the effect of reducing tax revenue in a given reporting year (revenue-reducing covered changes), similar to the way it would in the ordinary course of its budgeting process. The value of these covered changes may be reported based on estimated values produced by a budget model, incorporating reasonable assumptions, that aligns with the recipient government's existing approach for measuring the effects of fiscal policies, and that measures relative to a current law baseline. The covered changes may also be reported based on actual values using a statistical methodology to isolate the change in year-over-year revenue attributable to the covered change(s), relative to the current law baseline prior to the change(s). Estimation approaches should not use dynamic methodologies that incorporate the projected effects of the policies on macroeconomic growth. In general and where possible, reported values should be produced by the agency of the recipient government responsible for estimating the costs and effects of fiscal policy changes. Recipients must maintain records regarding the identification and predicted effects of revenue-reducing covered changes.

b. Baseline Revenue:

Baseline has the meaning defined in the Interim Final Rule, 31 CFR 35.3.

Whether the revenue-reducing covered changes are in excess of the *de minimis*. Recipients must determine whether the aggregate value of the revenue-reducing covered changes in the reporting year is less than one percent of baseline revenue.

c. Actual Tax Revenue:

Actual tax revenue means the actual tax revenue received by the recipient government in the reporting year. Tax revenue has the meaning defined in the Interim Final Rule, 31 CFR 35.3.

d. Reduction in Net Tax Revenue:

The reduction in net tax revenue is equal to baseline revenue minus actual tax revenue in each reporting year. If this value is zero or negative, there is no reduction in net tax revenue.

e. Any revenue-increasing covered changes:

A recipient must report the value of covered changes that have had or that the recipient predicts will have the effect of increasing tax revenue in a given reporting year (revenue-increasing covered changes), similar to the way it would in the ordinary course of its budgeting process. The value of these covered changes may be reported based on estimated values produced by a budget model, incorporating reasonable assumptions, that aligns with the recipient's existing approach for measuring the effects of fiscal policies, and that measures relative to a current law baseline. The covered changes may also be reported based on actual values using a statistical methodology to isolate the change in year-over-year revenue attributable to the covered change(s), relative to the current law baseline prior to the change(s). Estimation approaches should not use dynamic methodologies that incorporate the projected effects of the policies on macroeconomic growth. In general and where possible, reporting should be produced by the agency of the recipient responsible for estimating the costs and effects of fiscal policy changes.

Recipients should maintain records regarding revenue-reducing covered changes and estimates of such changes.

f. Net reduction in total spending, and tables of specific spending cuts:

Recipients must report on spending cuts. To calculate the amount of spending cuts that are available to offset a reduction in tax revenue, the recipient must first consider whether there has been a reduction in total net spending, excluding Fiscal Recovery Funds (net reduction in total spending). As in the Interim Final Rule, 35 CFR 35.3, net reduction in total spending is measured as the recipient government's total spending for a given reporting year excluding Fiscal Recovery Funds, subtracted from its total spending for its fiscal year ending in 2019, adjusted for inflation using the Bureau of Economic Analysis's Implicit Price Deflator for the gross domestic product of the United States. If that subtraction yields a positive value, there has been a net reduction; if it yields zero or a negative value, there has not been a net reduction. If there has been no net reduction in total spending, a recipient will have no spending cuts to offset a reduction in net tax revenue.

Next, a recipient must determine and aggregate the value of spending cuts in each "reporting unit," as defined below. For each reporting unit, the recipient must report (1) the amount of the reduction in spending in the reporting unit relative to its inflation-adjusted FY 2019 level, (2) the amount of any Fiscal Recovery Funds spent in the reporting unit, and (3) the amount by which the reduction in spending exceeds the Fiscal Recovery funds spent in the reporting unit. If a recipient has not spent amounts received from the Fiscal Recovery Funds in a reporting unit, the full amount of the reduction in spending counts as a covered spending cut and may be included in aggregate spending cuts. If the recipient has spent amounts received from the Fiscal Recovery Funds, such amounts generally would be deemed to have replaced the amount of spending cut, and only reductions in spending above the amount of Fiscal Recovery Funds spent on the reporting unit would be eligible to offset a reduction in net tax revenue. Only such amounts above the amount of Fiscal Recovery Funds spent on the reporting unit should be included in the aggregate of spending cuts.

To align with existing reporting and accounting, the Interim Final Rule considers the department, agency, or authority from which spending has been cut and whether the recipient government has spent amounts received from the Fiscal Recovery Funds on that same department, agency, or authority. Recipients may also choose to report at a more granular sub-department level. Recipients are encouraged to define and report spending in departments, sub-departments (e.g., bureaus), agencies, or authorities (each a "reporting unit") in a manner consistent with their existing budget process and should, to the extent possible, report using the same reporting unit in each reporting year. For example, if a State health department maintains separate budgets for different units (e.g., medical and public health units), those units may be reported and considered separately. Spending cuts must be reported relative to FY 2019 spending levels, adjusted for inflation, and excluding Fiscal Recovery Funds from reporting year spending levels.

Recipients should maintain records regarding spending cuts. As discussed in the Interim Final Rule, in order to help ensure governments use Fiscal Recovery Funds in a manner consistent with the prescribed eligible uses and do not use Fiscal Recovery Funds to indirectly offset a reduction in net tax revenue resulting from a covered change, Treasury will monitor changes in spending throughout the covered period. Evasions of the Tax Offset Provision may be subject to recoupment.

**Appendix 1: Expenditure Categories**

The Expenditure Categories (EC) listed below must be used to categorize each project as noted in Part 2 above. The term “Expenditure Category” refers to the detailed level (e.g., 1.1 COVID-10 Vaccination). When referred to as a category (e.g., EC 1) it includes all Expenditure Categories within that level.

<b>1: Public Health</b>	
1.1	COVID-19 Vaccination ^
1.2	COVID-19 Testing ^
1.3	COVID-19 Contact Tracing
1.4	Prevention in Congregate Settings (Nursing Homes, Prisons/Jails, Dense Work Sites, Schools, etc.)*
1.5	Personal Protective Equipment
1.6	Medical Expenses (including Alternative Care Facilities)
1.7	Capital Investments or Physical Plant Changes to Public Facilities that respond to the COVID-19 public health emergency
1.8	Other COVID-19 Public Health Expenses (including Communications, Enforcement, Isolation/Quarantine)
1.9	Payroll Costs for Public Health, Safety, and Other Public Sector Staff Responding to COVID-19
1.10	Mental Health Services*
1.11	Substance Use Services*
1.12	Other Public Health Services
<b>2: Negative Economic Impacts</b>	
2.1	Household Assistance: Food Programs* ^
2.2	Household Assistance: Rent, Mortgage, and Utility Aid* ^
2.3	Household Assistance: Cash Transfers* ^
2.4	Household Assistance: Internet Access Programs* ^
2.5	Household Assistance: Eviction Prevention* ^
2.6	Unemployment Benefits or Cash Assistance to Unemployed Workers*
2.7	Job Training Assistance (e.g., Sectoral job-training, Subsidized Employment, Employment Supports or Incentives)* ^
2.8	Contributions to UI Trust Funds
2.9	Small Business Economic Assistance (General)* ^
2.10	Aid to Nonprofit Organizations*
2.11	Aid to Tourism, Travel, or Hospitality
2.12	Aid to Other Impacted Industries
2.13	Other Economic Support* ^
2.14	Rehiring Public Sector Staff
<b>3: Services to Disproportionately Impacted Communities</b>	
3.1	Education Assistance: Early Learning* ^
3.2	Education Assistance: Aid to High-Poverty Districts ^
3.3	Education Assistance: Academic Services* ^
3.4	Education Assistance: Social, Emotional, and Mental Health Services* ^
3.5	Education Assistance: Other* ^
3.6	Healthy Childhood Environments: Child Care* ^
3.7	Healthy Childhood Environments: Home Visiting* ^
3.8	Healthy Childhood Environments: Services to Foster Youth or Families Involved in Child Welfare System* ^

3.9	Healthy Childhood Environments: Other* ^
3.10	Housing Support: Affordable Housing* ^
3.11	Housing Support: Services for Unhoused Persons* ^
3.12	Housing Support: Other Housing Assistance* ^
3.13	Social Determinants of Health: Other* ^
3.14	Social Determinants of Health: Community Health Workers or Benefits Navigators* ^
3.15	Social Determinants of Health: Lead Remediation ^
3.16	Social Determinants of Health: Community Violence Interventions* ^
<b>4: Premium Pay</b>	
4.1	Public Sector Employees
4.2	Private Sector: Grants to Other Employers
<b>5: Infrastructure<sup>27</sup></b>	
5.1	Clean Water: Centralized Wastewater Treatment
5.2	Clean Water: Centralized Wastewater Collection and Conveyance
5.3	Clean Water: Decentralized Wastewater
5.4	Clean Water: Combined Sewer Overflows
5.5	Clean Water: Other Sewer Infrastructure
5.6	Clean Water: Stormwater
5.7	Clean Water: Energy Conservation
5.8	Clean Water: Water Conservation
5.9	Clean Water: Nonpoint Source
5.10	Drinking water: Treatment
5.11	Drinking water: Transmission & Distribution
5.12	Drinking water: Transmission & Distribution: Lead Remediation
5.13	Drinking water: Source
5.14	Drinking water: Storage
5.15	Drinking water: Other water infrastructure
5.16	Broadband: "Last Mile" projects
5.17	Broadband: Other projects
<b>6: Revenue Replacement</b>	
6.1	Provision of Government Services
<b>7: Administrative</b>	
7.1	Administrative Expenses
7.2	Evaluation and Data Analysis
7.3	Transfers to Other Units of Government
7.4	Transfers to Non-entitlement Units (States and territories only)

\*Denotes areas where recipients must identify the amount of the total funds that are allocated to evidence-based interventions (see Use of Evidence section above for details)

^Denotes areas where recipients must report on whether projects are primarily serving disadvantaged communities (see Project Demographic Distribution section above for details)

<sup>27</sup> Definitions for water and sewer Expenditure Categories can be found in the EPA's handbooks. For "clean water" expenditure category definitions, please see: <https://www.epa.gov/sites/production/files/2018-03/documents/cwdefinitions.pdf>. For "drinking water" expenditure category definitions, please see: <https://www.epa.gov/dwsrf/drinking-water-state-revolving-fund-national-information-management-system-reports>.

## **Appendix 2: Evidenced-Based Intervention Additional Information**

### **What is evidence-based?**

For the purposes of the SLFRF, evidence-based refers to interventions with strong or moderate evidence as defined below:

Strong evidence means the evidence base that can support causal conclusions for the specific program proposed by the applicant with the highest level of confidence. This consists of one or more well-designed and well-implemented experimental studies conducted on the proposed program with positive findings on one or more intended outcomes.

Moderate evidence means that there is a reasonably developed evidence base that can support causal conclusions. The evidence base consists of one or more quasi-experimental studies with positive findings on one or more intended outcomes OR two or more non-experimental studies with positive findings on one or more intended outcomes. Examples of research that meet the standards include: well-designed and well-implemented quasi-experimental studies that compare outcomes between the group receiving the intervention and a matched comparison group (i.e., a similar population that does not receive the intervention).

Preliminary evidence means that the evidence base can support conclusions about the program's contribution to observed outcomes. The evidence base consists of at least one non-experimental study. A study that demonstrates improvement in program beneficiaries over time on one or more intended outcomes OR an implementation (process evaluation) study used to learn and improve program operations would constitute preliminary evidence. Examples of research that meet the standards include: (1) outcome studies that track program beneficiaries through a service pipeline and measure beneficiaries' responses at the end of the program; and (2) pre- and post-test research that determines whether beneficiaries have improved on an intended outcome.

### Revision Log

Version	Date Published	Summary of changes
1.0	June 17, 2021	Initial publication
1.1	June 24, 2021	<ul style="list-style-type: none"><li>• Pg. 12, removed references to “summary” level with respect to reporting by Expenditure Categories in the Interim Report to avoid confusion.</li><li>• Pg. 13, revised the coverage period end date for the Interim Report from June 30, 2021 to July 31, 2021 to align with the IFR.</li><li>• Pg. 13, removed references to “summary” level with respect to reporting by Expenditure Categories in the Interim Report to avoid confusion.</li><li>• Pg. 31, removed references to “summary level” with respect to Expenditure Categories in Appendix 1 to avoid confusion.</li></ul>

## **Coronavirus State and Local Fiscal Recovery Funds**

### **Frequently Asked Questions**

**AS OF JUNE 24, 2021**

This document contains answers to frequently asked questions regarding the Coronavirus State and Local Fiscal Recovery Funds (CSFRF / CLFRF, or Fiscal Recovery Funds). Treasury will be updating this document periodically in response to questions received from stakeholders. Recipients and stakeholders should consult the [Interim Final Rule](#) for additional information.

- For overall information about the program, including information on requesting funding, please see <https://home.treasury.gov/policy-issues/coronavirus/assistance-for-state-local-and-tribal-governments>
- For general questions about CSFRF / CLFRF, please email [SLFRP@treasury.gov](mailto:SLFRP@treasury.gov)
- Treasury is seeking comment on all aspects of the Interim Final Rule. Stakeholders are encouraged to submit comments electronically through the Federal eRulemaking Portal (<https://www.regulations.gov/document/TREAS-DO-2021-0008-0002>) on or before July 16, 2021. Please be advised that comments received will be part of the public record and subject to public disclosure. Do not disclose any information in your comment or supporting materials that you consider confidential or inappropriate for public disclosure.

Questions added 5/27/21: 1.5, 1.6, 2.13, 2.14, 2.15, 3.9, 4.5, 4.6, 10.3, 10.4 (noted with “[5/27]”)

Questions added 6/8/21: 2.16, 3.10, 3.11, 3.12, 4.7, 6.7, 8.2, 9.4, 9.5, 10.5 (noted with “[6/8]”)

Questions added 6/17/21: 6.8, 6.9, 6.10, 6.11 (noted with “[6/17]”)

Questions added 6/23/21: 1.7, 2.17, 2.18, 2.19, 2.20, 3.1 (appendix), 3.13, 4.8, 6.12 (noted with “[6/23]”)

Question added 6/24/21: 2.21 (noted with “[6/24]”)

Answers to frequently asked questions on distribution of funds to non-entitlement units of local government (NEUs) can be found in this [FAQ supplement](#), which is regularly updated.

## **1. Eligibility and Allocations**

### **1.1. Which governments are eligible for funds?**

The following governments are eligible:

- States and the District of Columbia
- Territories

- Tribal governments
- Counties
- Metropolitan cities
- Non-entitlement units, or smaller local governments

**1.2. Which governments receive funds directly from Treasury?**

Treasury will distribute funds directly to each eligible state, territory, metropolitan city, county, or Tribal government. Smaller local governments that are classified as non-entitlement units will receive funds through their applicable state government.

**1.3. Are special-purpose units of government eligible to receive funds?**

Special-purpose units of local government will not receive funding allocations; however, a state, territory, local, or Tribal government may transfer funds to a special-purpose unit of government. Special-purpose districts perform specific functions in the community, such as fire, water, sewer or mosquito abatement districts.

**1.4. How are funds being allocated to Tribal governments, and how will Tribal governments find out their allocation amounts?<sup>1</sup>**

\$20 billion of Fiscal Recovery Funds was reserved for Tribal governments. The American Rescue Plan Act specifies that \$1 billion will be allocated evenly to all eligible Tribal governments. The remaining \$19 billion will be distributed using an allocation methodology based on enrollment and employment.

There will be two payments to Tribal governments. Each Tribal government's first payment will include (i) an amount in respect of the \$1 billion allocation that is to be divided equally among eligible Tribal governments and (ii) each Tribal government's pro rata share of the Enrollment Allocation. Tribal governments will be notified of their allocation amount and delivery of payment 4-5 days after completing request for funds in the Treasury Submission Portal. The deadline to make the initial request for funds is June 21, 2021.

The second payment will include a Tribal government's pro rata share of the Employment Allocation. There is a \$1,000,000 minimum employment allocation for Tribal governments. In late-June, Tribal governments will receive an email notification to re-enter the Treasury Submission Portal to confirm or amend their 2019 employment numbers that were submitted to the Department of the Treasury for the CARES Act's Coronavirus Relief Fund. To receive an Employment Allocation, including the minimum employment allocation, Tribal governments must confirm employment numbers by July 16, 2021. Treasury will calculate employment allocations for those Tribal governments that confirmed or submitted amended employment numbers by the deadline. In August,

---

<sup>1</sup> The answer to this question was updated on June 29, 2021.

Treasury will communicate to Tribal governments the amount of their portion of the Employment Allocation and the anticipated date for the second payment.

**1.5. My county is a unit of general local government with population under 50,000. Will my county receive funds directly from Treasury? [5/27]**

Yes. All counties that are units of general local government will receive funds directly from Treasury and should apply via the [online portal](#). The list of county allocations is available [here](#).

**1.6. My local government expected to be classified as a non-entitlement unit. Instead, it was classified as a metropolitan city. Why? [5/27]**

The American Rescue Plan Act defines, for purposes of the Coronavirus Local Fiscal Recovery Fund (CLFRF), metropolitan cities to include those that are currently metropolitan cities under the Community Development Block Grant (CDBG) program but also those cities that relinquish or defer their status as a metropolitan city for purposes of the CDBG program. This would include, by way of example, cities that are principal cities of their metropolitan statistical area, even if their population is less than 50,000. In other words, a city that is eligible to be a metropolitan city under the CDBG program is eligible as a metropolitan city under the CLFRF, regardless of how that city has elected to participate in the CDBG program.

Unofficial allocation estimates produced by other organizations may have classified certain local governments as non-entitlement units of local government. However, based on the statutory definitions, some of these local governments should have been classified as metropolitan cities.

**1.7. In order to receive and use Fiscal Recovery Funds, must a recipient government maintain a declaration of emergency relating to COVID-19? [6/23]**

No. Neither the statute establishing the CSFRF/CLFRF nor the Interim Final Rule requires recipients to maintain a local declaration of emergency relating to COVID-19.

**2. Eligible Uses – Responding to the Public Health Emergency / Negative Economic Impacts**

**2.1. What types of COVID-19 response, mitigation, and prevention activities are eligible?**

A broad range of services are needed to contain COVID-19 and are eligible uses, including vaccination programs; medical care; testing; contact tracing; support for isolation or quarantine; supports for vulnerable populations to access medical or public health services; public health surveillance (e.g., monitoring case trends, genomic sequencing for variants); enforcement of public health orders; public communication

efforts; enhancement to health care capacity, including through alternative care facilities; purchases of personal protective equipment; support for prevention, mitigation, or other services in congregate living facilities (e.g., nursing homes, incarceration settings, homeless shelters, group living facilities) and other key settings like schools; ventilation improvements in congregate settings, health care settings, or other key locations; enhancement of public health data systems; and other public health responses. Capital investments in public facilities to meet pandemic operational needs are also eligible, such as physical plant improvements to public hospitals and health clinics or adaptations to public buildings to implement COVID-19 mitigation tactics.

**2.2. If a use of funds was allowable under the Coronavirus Relief Fund (CRF) to respond to the public health emergency, may recipients presume it is also allowable under CSFRF/CLFRF?**

Generally, funding uses eligible under CRF as a response to the direct public health impacts of COVID-19 will continue to be eligible under CSFRF/CLFRF, with the following two exceptions: (1) the standard for eligibility of public health and safety payrolls has been updated; and (2) expenses related to the issuance of tax-anticipation notes are not an eligible funding use.

**2.3. If a use of funds is not explicitly permitted in the Interim Final Rule as a response to the public health emergency and its negative economic impacts, does that mean it is prohibited?**

The Interim Final Rule contains a non-exclusive list of programs or services that may be funded as responding to COVID-19 or the negative economic impacts of the COVID-19 public health emergency, along with considerations for evaluating other potential uses of Fiscal Recovery Funds not explicitly listed. The Interim Final Rule also provides flexibility for recipients to use Fiscal Recovery Funds for programs or services that are not identified on these non-exclusive lists but which meet the objectives of section 602(c)(1)(A) or 603(c)(1)(A) by responding to the COVID-19 public health emergency with respect to COVID-19 or its negative economic impacts.

**2.4. May recipients use funds to respond to the public health emergency and its negative economic impacts by replenishing state unemployment funds?**

Consistent with the approach taken in the CRF, recipients may make deposits into the state account of the Unemployment Trust Fund up to the level needed to restore the pre-pandemic balances of such account as of January 27, 2020, or to pay back advances received for the payment of benefits between January 27, 2020 and the date when the Interim Final Rule is published in the Federal Register.

**2.5. What types of services are eligible as responses to the negative economic impacts of the pandemic?**

Eligible uses in this category include assistance to households; small businesses and non-profits; and aid to impacted industries.

Assistance to households includes, but is not limited to: food assistance; rent, mortgage, or utility assistance; counseling and legal aid to prevent eviction or homelessness; cash assistance; emergency assistance for burials, home repairs, weatherization, or other needs; internet access or digital literacy assistance; or job training to address negative economic or public health impacts experienced due to a worker's occupation or level of training.

Assistance to small business and non-profits includes, but is not limited to:

- loans or grants to mitigate financial hardship such as declines in revenues or impacts of periods of business closure, for example by supporting payroll and benefits costs, costs to retain employees, mortgage, rent, or utilities costs, and other operating costs;
- Loans, grants, or in-kind assistance to implement COVID-19 prevention or mitigation tactics, such as physical plant changes to enable social distancing, enhanced cleaning efforts, barriers or partitions, or COVID-19 vaccination, testing, or contact tracing programs; and
- Technical assistance, counseling, or other services to assist with business planning needs

**2.6. May recipients use funds to respond to the public health emergency and its negative economic impacts by providing direct cash transfers to households?**

Yes, provided the recipient considers whether, and the extent to which, the household has experienced a negative economic impact from the pandemic. Additionally, cash transfers must be reasonably proportional to the negative economic impact they are intended to address. Cash transfers grossly in excess of the amount needed to address the negative economic impact identified by the recipient would not be considered to be a response to the COVID-19 public health emergency or its negative impacts. In particular, when considering appropriate size of permissible cash transfers made in response to the COVID-19 public health emergency, state, local, territorial, and Tribal governments may consider and take guidance from the per person amounts previously provided by the federal government in response to the COVID crisis.

**2.7. May funds be used to reimburse recipients for costs incurred by state and local governments in responding to the public health emergency and its negative economic impacts prior to passage of the American Rescue Plan?**

Use of Fiscal Recovery Funds is generally forward looking. The Interim Final Rule permits funds to be used to cover costs incurred beginning on March 3, 2021.

**2.8. May recipients use funds for general economic development or workforce development?**

Generally, not. Recipients must demonstrate that funding uses directly address a negative economic impact of the COVID-19 public health emergency, including funds used for economic or workforce development. For example, job training for unemployed workers may be used to address negative economic impacts of the public health emergency and be eligible.

**2.9. How can recipients use funds to assist the travel, tourism, and hospitality industries?**

Aid provided to tourism, travel, and hospitality industries should respond to the negative economic impacts of the pandemic. For example, a recipient may provide aid to support safe reopening of businesses in the tourism, travel and hospitality industries and to districts that were closed during the COVID-19 public health emergency, as well as aid a planned expansion or upgrade of tourism, travel and hospitality facilities delayed due to the pandemic.

Tribal development districts are considered the commercial centers for tribal hospitality, gaming, tourism and entertainment industries.

**2.10. May recipients use funds to assist impacted industries other than travel, tourism, and hospitality?**

Yes, provided that recipients consider the extent of the impact in such industries as compared to tourism, travel, and hospitality, the industries enumerated in the statute. For example, nationwide the leisure and hospitality industry has experienced an approximately 17 percent decline in employment and 24 percent decline in revenue, on net, due to the COVID-19 public health emergency. Recipients should also consider whether impacts were due to the COVID-19 pandemic, as opposed to longer-term economic or industrial trends unrelated to the pandemic.

Recipients should maintain records to support their assessment of how businesses or business districts receiving assistance were affected by the negative economic impacts of the pandemic and how the aid provided responds to these impacts.

**2.11. How does the Interim Final Rule help address the disparate impact of COVID-19 on certain populations and geographies?**

In recognition of the disproportionate impacts of the COVID-19 virus on health and economic outcomes in low-income and Native American communities, the Interim Final Rule identifies a broader range of services and programs that are considered to be in response to the public health emergency when provided in these communities. Specifically, Treasury will presume that certain types of services are eligible uses when provided in a Qualified Census Tract (QCT), to families living in QCTs, or when these services are provided by Tribal governments.

Recipients may also provide these services to other populations, households, or geographic areas disproportionately impacted by the pandemic. In identifying these disproportionately-impacted communities, recipients should be able to support their determination for how the pandemic disproportionately impacted the populations, households, or geographic areas to be served.

Eligible services include:

- Addressing health disparities and the social determinants of health, including: community health workers, public benefits navigators, remediation of lead paint or other lead hazards, and community violence intervention programs;
- Building stronger neighborhoods and communities, including: supportive housing and other services for individuals experiencing homelessness, development of affordable housing, and housing vouchers and assistance relocating to neighborhoods with higher levels of economic opportunity;
- Addressing educational disparities exacerbated by COVID-19, including: early learning services, increasing resources for high-poverty school districts, educational services like tutoring or afterschool programs, and supports for students' social, emotional, and mental health needs; and
- Promoting healthy childhood environments, including: child care, home visiting programs for families with young children, and enhanced services for child welfare-involved families and foster youth.

**2.12. May recipients use funds to pay for vaccine incentive programs (e.g., cash or in-kind transfers, lottery programs, or other incentives for individuals who get vaccinated)?**

Yes. Under the Interim Final Rule, recipients may use Coronavirus State and Local Fiscal Recovery Funds to respond to the COVID-19 public health emergency, including expenses related to COVID-19 vaccination programs. See 31 CFR 35.6(b)(1)(i). Programs that provide incentives reasonably expected to increase the number of people who choose to get vaccinated, or that motivate people to get vaccinated sooner than they otherwise would have, are an allowable use of funds so long as such costs are reasonably proportional to the expected public health benefit.

**2.13. May recipients use funds to pay “back to work incentives” (e.g., cash payments for newly employed workers after a certain period of time on the job)? [5/27]**

Yes. Under the Interim Final Rule, recipients may use Coronavirus State and Local Fiscal Recovery Funds to provide assistance to unemployed workers. See 31 CFR 35.6(b)(4). This assistance can include job training or other efforts to accelerate rehiring and thus reduce unemployment, such as childcare assistance, assistance with transportation to and from a jobsite or interview, and incentives for newly employed workers.

**2.14. The Coronavirus Relief Fund (CRF) included as an eligible use: "Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency." What has changed in CSFRF/CLFRF, and what type of documentation is required under CSFRF/CLFRF? [5/27]**

Many of the expenses authorized under the Coronavirus Relief Fund are also eligible uses under the CSFRF/CLFRF. However, in the case of payroll expenses for public safety, public health, health care, human services, and similar employees (hereafter, public health and safety staff), the CSFRF/CLFRF does differ from the CRF. This change reflects the differences between the ARPA and CARES Act and recognizes that the response to the COVID-19 public health emergency has changed and will continue to change over time. In particular, funds may be used for payroll and covered benefits expenses for public safety, public health, health care, human services, and similar employees, including first responders, to the extent that the employee's time that is dedicated to responding to the COVID-19 public health emergency.

For administrative convenience, the recipient may consider a public health and safety employee to be entirely devoted to mitigating or responding to the COVID-19 public health emergency, and therefore fully covered, if the employee, or his or her operating unit or division, is primarily dedicated (e.g., more than half of the employee's time is dedicated) to responding to the COVID-19 public health emergency.

Recipients may use presumptions for assessing whether an employee, division, or operating unit is primarily dedicated to COVID-19 response. The recipient should maintain records to support its assessment, such as payroll records, attestations from supervisors or staff, or regular work product or correspondence demonstrating work on the COVID-19 response. Recipients need not routinely track staff hours. Recipients should periodically reassess their determinations.

**2.15. What staff are included in "public safety, public health, health care, human services, and similar employees"? Would this include, for example, 911 operators, morgue staff, medical examiner staff, or EMS staff? [5/27]**

As discussed in the Interim Final Rule, funds may be used for payroll and covered benefits expenses for public safety, public health, health care, human services, and similar employees, for the portion of the employee's time that is dedicated to responding to the COVID-19 public health emergency.

Public safety employees would include police officers (including state police officers), sheriffs and deputy sheriffs, firefighters, emergency medical responders, correctional and detention officers, and those who directly support such employees such as dispatchers and supervisory personnel. Public health employees would include employees involved in providing medical and other health services to patients and supervisory personnel, including medical staff assigned to schools, prisons, and other such institutions, and other

support services essential for patient care (e.g., laboratory technicians, medical examiner or morgue staff) as well as employees of public health departments directly engaged in matters related to public health and related supervisory personnel. Human services staff include employees providing or administering social services; public benefits; child welfare services; and child, elder, or family care, as well as others.

**2.16. May recipients use funds to establish a public jobs program? [6/8]**

Yes. The Interim Final Rule permits a broad range of services to unemployed or underemployed workers and other individuals that suffered negative economic impacts from the pandemic. That can include public jobs programs, subsidized employment, combined education and on-the-job training programs, or job training to accelerate rehiring or address negative economic or public health impacts experienced due to a worker's occupation or level of training. The broad range of permitted services can also include other employment supports, such as childcare assistance or assistance with transportation to and from a jobsite or interview.

The Interim Final Rule includes as an eligible use re-hiring public sector staff up to the government's level of pre-pandemic employment. "Public sector staff" would not include individuals participating in a job training or subsidized employment program administered by the recipient.

**2.17. The Interim Final Rule states that "assistance or aid to individuals or businesses that did not experience a negative economic impact from the public health emergency would not be an eligible use under this category." Are recipients required to demonstrate that each individual or business experienced a negative economic impact for that individual or business to receive assistance? [6/23]**

Not necessarily. The Interim Final Rule allows recipients to demonstrate a negative economic impact on a population or group and to provide assistance to households or businesses that fall within that population or group. In such cases, the recipient need only demonstrate that the household or business is within the population or group that experienced a negative economic impact.

For assistance to households, the Interim Final Rule states, "In assessing whether a household or population experienced economic harm as a result of the pandemic, a recipient may presume that a household or population that experienced unemployment or increased food or housing insecurity or is low- or moderate-income experienced negative economic impacts resulting from the pandemic." This would allow, for example, an internet access assistance program for all low- or moderate-income households, but would not require the recipient to demonstrate or document that each individual low- or moderate income household experienced a negative economic impact from the COVID-19 public health emergency apart from being low- or -moderate income.

For assistance to small businesses, the Interim Final Rule states that assistance may be provided to small businesses, including loans, grants, in-kind assistance, technical

assistance or other services, to respond to the negative economic impacts of the COVID-19 public health emergency. In providing assistance to small businesses, recipients must design a program that responds to the negative economic impacts of the COVID-19 public health emergency, including by identifying how the program addresses the identified need or impact faced by small businesses. This can include assistance to adopt safer operating procedures, weather periods of closure, or mitigate financial hardship resulting from the COVID-19 public health emergency.

As part of program design and to ensure that the program responds to the identified need, recipients may consider additional criteria to target assistance to businesses in need, including to small businesses. Assistance may be targeted to businesses facing financial insecurity, with substantial declines in gross receipts (e.g., comparable to measures used to assess eligibility for the Paycheck Protection Program), or facing other economic harm due to the pandemic, as well as businesses with less capacity to weather financial hardship, such as the smallest businesses, those with less access to credit, or those serving disadvantaged communities. For example, a recipient could find based on local data or research that the smallest businesses faced sharply increased risk of bankruptcy and develop a program to respond; such a program would only need to document a population or group-level negative economic impact, and eligibility criteria to limit access to the program to that population or group (in this case, the smallest businesses).

In addition, recognizing the disproportionate impact of the pandemic on disadvantaged communities, the Interim Final Rule also identifies a set of services that are presumptively eligible when provided in a Qualified Census Tract (QCT); to families and individuals living in QCTs; to other populations, households, or geographic areas identified by the recipient as disproportionately impacted by the pandemic; or when these services are provided by Tribal governments. For more information on the set of presumptively eligible services, see the Interim Final Rule section on *Building Stronger Communities through Investments in Housing and Neighborhoods* and FAQ 2.11.

**2.18. Would investments in improving outdoor spaces (e.g. parks) be an eligible use of funds as a response to the public health emergency and/or its negative economic impacts? [6/23]**

There are multiple ways that investments in improving outdoor spaces could qualify as eligible uses; several are highlighted below, though there may be other ways that a specific investment in outdoor spaces would meet eligible use criteria.

First, in recognition of the disproportionate negative economic impacts on certain communities and populations, the Interim Final Rule identifies certain types of services that are eligible uses when provided in a Qualified Census Tract (QCT), to families and individuals living in QCTs, or when these services are provided by Tribal governments. Recipients may also provide these services to other populations, households, or geographic areas disproportionately impacted by the pandemic.

These programs and services include services designed to build stronger neighborhoods and communities and to address health disparities and the social determinants of health. The Interim Final Rule provides a non-exhaustive list of eligible services to respond to the needs of communities disproportionately impacted by the pandemic, and recipients may identify other uses of funds that do so, consistent with the Rule’s framework. For example, investments in parks, public plazas, and other public outdoor recreation spaces may be responsive to the needs of disproportionately impacted communities by promoting healthier living environments and outdoor recreation and socialization to mitigate the spread of COVID-19.

Second, recipients may provide assistance to small businesses in all communities. Assistance to small businesses could include support to enhance outdoor spaces for COVID-19 mitigation (e.g., restaurant patios) or to improve the built environment of the neighborhood (e.g., façade improvements).

Third, many governments saw significantly increased use of parks during the pandemic that resulted in damage or increased maintenance needs. The Interim Final Rule recognizes that “decrease[s to] a state or local government’s ability to effectively administer services” can constitute a negative economic impact of the pandemic.

**2.19. Would expenses to address a COVID-related backlog in court cases be an eligible use of funds as a response to the public health emergency? [6/23]**

The Interim Final Rule recognizes that “decrease[s to] a state or local government’s ability to effectively administer services,” such as cuts to public sector staffing levels, can constitute a negative economic impact of the pandemic. During the COVID-19 public health emergency, many courts were unable to operate safely during the pandemic and, as a result, now face significant backlogs. Court backlogs resulting from inability of courts to safely operate during the COVID-19 pandemic decreased the government’s ability to administer services. Therefore, steps to reduce these backlogs, such as implementing COVID-19 safety measures to facilitate court operations, hiring additional court staff or attorneys to increase speed of case resolution, and other expenses to expedite case resolution are eligible uses.

**2.20. Can funds be used to assist small business startups as a response to the negative economic impact of COVID-19? [6/23]**

As discussed in the Interim Final Rule, recipients may provide assistance to small businesses that responds to the negative economic impacts of COVID-19. The Interim Final Rule provides a non-exclusive list of potential assistance mechanisms, as well as considerations for ensuring that such assistance is responsive to the negative economic impacts of COVID-19.

Treasury acknowledges a range of potential circumstances in which assisting small business startups could be responsive to the negative economic impacts of COVID-19,

including for small businesses and individuals seeking to start small businesses after the start of the COVID-19 public health emergency. For example:

- A recipient could assist small business startups with additional costs associated with COVID-19 mitigation tactics (e.g., barriers or partitions; enhanced cleaning; or physical plant changes to enable greater use of outdoor space).
- A recipient could identify and respond to a negative economic impact of COVID-19 on new small business startups; for example, if it could be shown that small business startups in a locality were facing greater difficulty accessing credit than prior to the pandemic, faced increased costs to starting the business due to the pandemic, or that the small business had lost expected startup capital due to the pandemic.
- The Interim Final Rule also discusses eligible uses that provide support for individuals who have experienced a negative economic impact from the COVID-19 public health emergency, including uses that provide job training for unemployed individuals. These initiatives also may support small business startups and individuals seeking to start small businesses.

**2.21. Can funds be used for eviction prevention efforts or housing stability services? [6/24]**

Yes. Responses to the negative economic impacts of the pandemic include “rent, mortgage, or utility assistance [and] counseling and legal aid to prevent eviction or homelessness.” This includes housing stability services that enable eligible households to maintain or obtain housing, such as housing counseling, fair housing counseling, case management related to housing stability, outreach to households at risk of eviction or promotion of housing support programs, housing related services for survivors of domestic abuse or human trafficking, and specialized services for individuals with disabilities or seniors that supports their ability to access or maintain housing.

This also includes legal aid such as legal services or attorney’s fees related to eviction proceedings and maintaining housing stability, court-based eviction prevention or eviction diversion programs, and other legal services that help households maintain or obtain housing.

Recipients may transfer funds to, or execute grants or contracts with, court systems, non-profits, and a wide range of other organizations to implement these strategies.

**3. Eligible Uses – Revenue Loss**

**3.1. How is revenue defined for the purpose of this provision? [appendix added 6/23]**

The Interim Final Rule adopts a definition of “General Revenue” that is based on, but not identical, to the Census Bureau’s concept of “General Revenue from Own Sources” in the Annual Survey of State and Local Government Finances.

General Revenue includes revenue from taxes, current charges, and miscellaneous general revenue. It excludes refunds and other correcting transactions, proceeds from issuance of debt or the sale of investments, agency or private trust transactions, and revenue generated by utilities and insurance trusts. General revenue also includes intergovernmental transfers between state and local governments, but excludes intergovernmental transfers from the Federal government, including Federal transfers made via a state to a locality pursuant to the CRF or the Fiscal Recovery Funds.

Tribal governments may include all revenue from Tribal enterprises and gaming operations in the definition of General Revenue.

Please see the appendix for a diagram of the Interim Final Rule's definition of General Revenue within the Census Bureau's revenue classification structure.

**3.2. Will revenue be calculated on an entity-wide basis or on a source-by-source basis (e.g. property tax, income tax, sales tax, etc.)?**

Recipients should calculate revenue on an entity-wide basis. This approach minimizes the administrative burden for recipients, provides for greater consistency across recipients, and presents a more accurate representation of the net impact of the COVID-19 public health emergency on a recipient's revenue, rather than relying on financial reporting prepared by each recipient, which vary in methodology used and which generally aggregates revenue by purpose rather than by source.

**3.3. Does the definition of revenue include outside concessions that contract with a state or local government?**

Recipients should classify revenue sources as they would if responding to the U.S. Census Bureau's Annual Survey of State and Local Government Finances. According to the Census Bureau's [Government Finance and Employment Classification manual](#), the following is an example of current charges that would be included in a state or local government's general revenue from own sources: "Gross revenue of facilities operated by a government (swimming pools, recreational marinas and piers, golf courses, skating rinks, museums, zoos, etc.); auxiliary facilities in public recreation areas (camping areas, refreshment stands, gift shops, etc.); lease or use fees from stadiums, auditoriums, and community and convention centers; and rentals from concessions at such facilities."

**3.4. What is the time period for estimating revenue loss? Will revenue losses experienced prior to the passage of the Act be considered?**

Recipients are permitted to calculate the extent of reduction in revenue as of four points in time: December 31, 2020; December 31, 2021; December 31, 2022; and December 31, 2023. This approach recognizes that some recipients may experience lagged effects of the pandemic on revenues.

Upon receiving Fiscal Recovery Fund payments, recipients may immediately calculate revenue loss for the period ending December 31, 2020.

**3.5. What is the formula for calculating the reduction in revenue?**

A reduction in a recipient’s General Revenue equals:

$$\text{Max} \{ [\text{Base Year Revenue} * (1 + \text{Growth Adjustment})^{\left(\frac{n_t}{12}\right)}] - \text{Actual General Revenue}_t ; 0 \}$$

Where:

*Base Year Revenue* is General Revenue collected in the most recent full fiscal year prior to the COVID-19 public health emergency.

*Growth Adjustment* is equal to the greater of 4.1 percent (or 0.041) and the recipient’s average annual revenue growth over the three full fiscal years prior to the COVID-19 public health emergency.

*n* equals the number of months elapsed from the end of the base year to the calculation date.

*Actual General Revenue* is a recipient’s actual general revenue collected during 12-month period ending on each calculation date.

Subscript *t* denotes the calculation date.

**3.6. Are recipients expected to demonstrate that reduction in revenue is due to the COVID-19 public health emergency?**

In the Interim Final Rule, any diminution in actual revenue calculated using the formula above would be presumed to have been “due to” the COVID-19 public health emergency. This presumption is made for administrative ease and in recognition of the broad-based economic damage that the pandemic has wrought.

**3.7. May recipients use pre-pandemic projections as a basis to estimate the reduction in revenue?**

No. Treasury is disallowing the use of projections to ensure consistency and comparability across recipients and to streamline verification. However, in estimating the revenue shortfall using the formula above, recipients may incorporate their average annual revenue growth rate in the three full fiscal years prior to the public health emergency.

**3.8. Once a recipient has identified a reduction in revenue, are there any restrictions on how recipients use funds up to the amount of the reduction?**

The Interim Final Rule gives recipients broad latitude to use funds for the provision of government services to the extent of reduction in revenue. Government services can include, but are not limited to, maintenance of infrastructure or pay-go spending for building new infrastructure, including roads; modernization of cybersecurity, including hardware, software, and protection of critical infrastructure; health services; environmental remediation; school or educational services; and the provision of police, fire, and other public safety services.

However, paying interest or principal on outstanding debt, replenishing rainy day or other reserve funds, or paying settlements or judgments would not be considered provision of a government service, since these uses of funds do not entail direct provision of services to citizens. This restriction on paying interest or principal on any outstanding debt instrument, includes, for example, short-term revenue or tax anticipation notes, or paying fees or issuance costs associated with the issuance of new debt. In addition, the overarching restrictions on all program funds (e.g., restriction on pension deposits, restriction on using funds for non-federal match where barred by regulation or statute) would apply.

**3.9. How do I know if a certain type of revenue should be counted for the purpose of computing revenue loss? [5/27]**

As discussed in FAQ #3.1, the Interim Final Rule adopts a definition of “General Revenue” that is based on, but not identical, to the Census Bureau’s concept of “General Revenue from Own Sources” in the Annual Survey of State and Local Government Finances.

Recipients should refer to the definition of “General Revenue” included in the Interim Final Rule. See 31 CFR 35.3. If a recipient is unsure whether a particular revenue source is included in the Interim Final Rule’s definition of “General Revenue,” the recipient may consider the classification and instructions used to complete the Census Bureau’s Annual Survey.

For example, parking fees would be classified as a Current Charge for the purpose of the Census Bureau’s Annual Survey, and the Interim Final Rule’s concept of “General Revenue” includes all Current Charges. Therefore, parking fees would be included in the Interim Final Rule’s concept of “General Revenue.”

The Census Bureau’s Government Finance and Employment Classification manual is available [here](#).

**3.10. In calculating revenue loss, are recipients required to use audited financials? [6/8]**

Where audited data is not available, recipients are not required to obtain audited data. Treasury expects all information submitted to be complete and accurate. See 31 CFR 35.4(c).

**3.11. In calculating revenue loss, should recipients use their own data, or Census data? [6/8]**

Recipients should use their own data sources to calculate general revenue, and do not need to rely on published revenue data from the Census Bureau. Treasury acknowledges that due to differences in timing, data sources, and definitions, recipients' self-reported general revenue figures may differ somewhat from those published by the Census Bureau.

**3.12. Should recipients calculate revenue loss on a cash basis or an accrual basis? [6/8]**

Recipients may provide data on a cash, accrual, or modified accrual basis, provided that recipients are consistent in their choice of methodology throughout the covered period and until reporting is no longer required.

**3.13. In identifying intergovernmental revenue for the purpose of calculating General Revenue, should recipients exclude all federal funding, or just federal funding related to the COVID-19 response? How should local governments treat federal funds that are passed through states or other entities, or federal funds that are intermingled with other funds? [6/23]**

In calculating General Revenue, recipients should exclude all intergovernmental transfers from the federal government. This includes, but is not limited to, federal transfers made via a state to a locality pursuant to the Coronavirus Relief Fund or Fiscal Recovery Funds. To the extent federal funds are passed through states or other entities or intermingled with other funds, recipients should attempt to identify and exclude the federal portion of those funds from the calculation of General Revenue on a best-efforts basis.

## **4. Eligible Uses – General**

**4.1. May recipients use funds to replenish a budget stabilization fund, rainy day fund, or similar reserve account?**

No. Funds made available to respond to the public health emergency and its negative economic impacts are intended to help meet pandemic response needs and provide immediate stabilization for households and businesses. Contributions to rainy day funds and similar reserves funds would not address these needs or respond to the COVID-19 public health emergency, but would rather be savings for future spending needs. Similarly, funds made available for the provision of governmental services (to the extent of reduction in revenue) are intended to support direct provision of services to citizens. Contributions to rainy day funds are not considered provision of government services, since such expenses do not directly relate to the provision of government services.

**4.2. May recipients use funds to invest in infrastructure other than water, sewer, and broadband projects (e.g. roads, public facilities)?**

Under 602(c)(1)(C) or 603(c)(1)(C), recipients may use funds for maintenance of infrastructure or pay-go spending for building of new infrastructure as part of the general provision of government services, to the extent of the estimated reduction in revenue due to the public health emergency.

Under 602(c)(1)(A) or 603(c)(1)(A), a general infrastructure project typically would not be considered a response to the public health emergency and its negative economic impacts unless the project responds to a specific pandemic-related public health need (e.g., investments in facilities for the delivery of vaccines) or a specific negative economic impact of the pandemic (e.g., affordable housing in a Qualified Census Tract).

**4.3. May recipients use funds to pay interest or principal on outstanding debt?**

No. Expenses related to financing, including servicing or redeeming notes, would not address the needs of pandemic response or its negative economic impacts. Such expenses would also not be considered provision of government services, as these financing expenses do not directly provide services or aid to citizens.

This applies to paying interest or principal on any outstanding debt instrument, including, for example, short-term revenue or tax anticipation notes, or paying fees or issuance costs associated with the issuance of new debt.

**4.4. May recipients use funds to satisfy nonfederal matching requirements under the Stafford Act? May recipients use funds to satisfy nonfederal matching requirements generally?**

Fiscal Recovery Funds are subject to pre-existing limitations in other federal statutes and regulations and may not be used as non-federal match for other Federal programs whose statute or regulations bar the use of Federal funds to meet matching requirements. For example, expenses for the state share of Medicaid are not an eligible use. For information on FEMA programs, please [see here](#).

**4.5. Are governments required to submit proposed expenditures to Treasury for approval? [5/27]**

No. Recipients are not required to submit planned expenditures for prior approval by Treasury. Recipients are subject to the requirements and guidelines for eligible uses contained in the Interim Final Rule.

**4.6. How do I know if a specific use is eligible? [5/27]**

Fiscal Recovery Funds must be used in one of the four eligible use categories specified in the American Rescue Plan Act and implemented in the Interim Final Rule:

- a) To respond to the public health emergency or its negative economic impacts, including assistance to households, small businesses, and nonprofits, or aid to impacted industries such as tourism, travel, and hospitality;
- b) To respond to workers performing essential work during the COVID-19 public health emergency by providing premium pay to eligible workers;
- c) For the provision of government services to the extent of the reduction in revenue due to the COVID-19 public health emergency relative to revenues collected in the most recent full fiscal year prior to the emergency; and
- d) To make necessary investments in water, sewer, or broadband infrastructure.

Recipients should consult Section II of the Interim Final Rule for additional information on eligible uses. For recipients evaluating potential uses under (a), the Interim Final Rule contains a non-exclusive list of programs or services that may be funded as responding to COVID-19 or the negative economic impacts of the COVID-19 public health emergency, along with considerations for evaluating other potential uses of Fiscal Recovery Funds not explicitly listed. See Section II of the Interim Final Rule for additional discussion.

For recipients evaluating potential uses under (c), the Interim Final Rule gives recipients broad latitude to use funds for the provision of government services to the extent of reduction in revenue. See FAQ #3.8 for additional discussion.

For recipients evaluating potential uses under (b) and (d), see Sections 5 and 6.

**4.7. Do restrictions on using Coronavirus State and Local Fiscal Recovery Funds to cover costs incurred beginning on March 3, 2021 apply to costs incurred by the recipient (e.g., a State, local, territorial, or Tribal government) or to costs incurred by households, businesses, and individuals benefiting from assistance provided using Coronavirus State and Local Fiscal Recovery Funds? [6/8]**

The Interim Final Rule permits funds to be used to cover costs incurred beginning on March 3, 2021. This limitation applies to costs incurred by the recipient (i.e., the state, local, territorial, or Tribal government receiving funds). However, recipients may use Coronavirus State and Local Fiscal Recovery Funds to provide assistance to households, businesses, and individuals within the eligible use categories described in the Interim Final Rule for economic harms experienced by those households, businesses, and individuals prior to March 3, 2021. For example,

- Public Health/Negative Economic Impacts – Recipients may use Coronavirus State and Local Fiscal Recovery Funds to provide assistance to households – such as rent, mortgage, or utility assistance – for economic harms experienced or costs incurred by the household prior to March 3, 2021 (e.g., rental arrears from

preceding months), provided that the cost of providing assistance to the household was not incurred by the recipient prior to March 3, 2021.

- Premium Pay – Recipients may provide premium pay retrospectively for work performed at any time since the start of the COVID-19 public health emergency. Such premium pay must be “in addition to” wages and remuneration already received and the obligation to provide such pay must not have been incurred by the recipient prior to March 3, 2021.
- Revenue Loss – The Interim Final Rule gives recipients broad latitude to use funds for the provision of government services to the extent of reduction in revenue. The calculation of lost revenue begins with the recipient’s revenue in the last full fiscal year prior to the COVID-19 public health emergency and includes the 12-month period ending December 31, 2020. However, use of funds for government services must be forward looking for costs incurred by the recipient after March 3, 2021.
- Investments in Water, Sewer, and Broadband – Recipients may use Coronavirus State and Local Fiscal Recovery Funds to make necessary investments in water, sewer, and broadband. See FAQ Section 6. Recipients may use Coronavirus State and Local Fiscal Recovery Funds to cover costs incurred for eligible projects planned or started prior to March 3, 2021, provided that the project costs covered by the Coronavirus State and Local Fiscal Recovery Funds were incurred after March 3, 2021.

#### **4.8. How can I use CSFRF/CLFRF funds to prevent and respond to crime, and support public safety in my community? [6/23]**

Under Treasury’s Interim Final Rule, there are many ways in which the State and Local Fiscal Recovery Funds (“Funds”) under the American Rescue Plan Act can support communities working to reduce and respond to increased violence due to the pandemic. Among the eligible uses of the Funds are restoring of public sector staff to their pre-pandemic levels and responses to the public health crisis and negative economic impacts resulting from the pandemic. The Interim Final Rule provides several ways for recipients to “respond to” this pandemic-related gun violence, ranging from community violence intervention programs to mental health services to hiring of public safety personnel.

Below are some examples of how Fiscal Recovery Funds can be used to address public safety:

- In all communities, recipients may use resources to rehire police officers and other public servants to restore law enforcement and courts to their pre-pandemic levels. Additionally, Funds can be used for expenses to address COVID-related court backlogs, including hiring above pre-pandemic levels, as a response to the public health emergency. See FAQ 2.19.
- In communities where an increase in violence or increased difficulty in accessing or providing services to respond to or mitigate the effects of violence, is a result of the pandemic they may use funds to address that harm. This spending may include:

- Hiring law enforcement officials – even above pre-pandemic levels – or paying overtime where the funds are directly focused on advancing community policing strategies in those communities experiencing an increase in gun violence associated with the pandemic
- Community Violence Intervention (CVI) programs, including capacity building efforts at CVI programs like funding and training additional intervention workers
- Additional enforcement efforts to reduce gun violence exacerbated by the pandemic, including prosecuting gun traffickers, dealers, and other parties contributing to the supply of crime guns, as well as collaborative federal, state, and local efforts to identify and address gun trafficking channels
- Investing in technology and equipment to allow law enforcement to more efficiently and effectively respond to the rise in gun violence resulting from the pandemic

As discussed in the Interim Final Rule, uses of CSFRF/CLFRF funds that respond to an identified harm must be related and reasonably proportional to the extent and type of harm experienced; uses that bear no relation or are grossly disproportionate to the type or extent of harm experienced would not be eligible uses.

- Recipients may also use funds up to the level of revenue loss for government services, including those outlined above.

Recognizing that the pandemic exacerbated mental health and substance use disorder needs in many communities, eligible public health services include mental health and other behavioral health services, which are a critical component of a holistic public safety approach. This could include:

- Mental health services and substance use disorder services, including for individuals experiencing trauma exacerbated by the pandemic, such as:
  - Community-based mental health and substance use disorder programs that deliver evidence-based psychotherapy, crisis support services, medications for opioid use disorder, and/or recovery support
  - School-based social-emotional support and other mental health services
- Referrals to trauma recovery services for crime victims.

Recipients also may use Funds to respond to the negative economic impacts of the public health emergency, including:

- Assistance programs to households or populations facing negative economic impacts of the public health emergency, including:
  - Assistance to support economic security, including for the victims of crime;
  - Housing assistance, including rent, utilities, and relocation assistance;
  - Assistance with food, including Summer EBT and nutrition programs; and
  - Employment or job training services to address negative economic or public health impacts experienced due to a worker's occupation or level of training.
- Assistance to unemployed workers, including:

- Subsidized jobs, including for young people. Summer youth employment programs directly address the negative economic impacts of the pandemic on young people and their families and communities;
- Programs that provide paid training and/or work experience targeted primarily to (1) formerly incarcerated individuals, and/or (2) communities experiencing high levels of violence exacerbated by the pandemic;
- Programs that provide workforce readiness training, apprenticeship or pre-apprenticeship opportunities, skills development, placement services, and/or coaching and mentoring; and
- Associated wraparound services, including for housing, health care, and food.

Recognizing the disproportionate impact of the pandemic on certain communities, a broader range of services are eligible in those communities than would otherwise be available in communities not experiencing a pandemic-related increase in crime or gun violence. These eligible uses aim to address the pandemic's exacerbation of public health and economic disparities and include services to address health and educational disparities, support neighborhoods and affordable housing, and promote healthy childhood environments. The Interim Final Rule provides a non-exhaustive list of eligible services in these categories.

These services automatically qualify as eligible uses when provided in Qualified Census Tracts (QCTs), low-income areas designated by HUD; to families in QCTs; or by Tribal governments. Outside of these areas, recipient governments can also identify and serve households, populations, and geographic areas disproportionately impacted by the pandemic.

Services under this category could include:

- Programs or services that address or mitigate the impacts of the COVID-19 public health emergency on education, childhood health and welfare, including:
  - Summer education and enrichment programs in these communities, which include many communities currently struggling with high levels of violence;
  - Programs that address learning loss and keep students productively engaged;
  - Enhanced services for foster youths and home visiting programs; and
  - Summer camps and recreation.
- Programs or services that provide or facilitate access to health and social services and address health disparities exacerbated by the pandemic. This includes Community Violence Intervention (CVI) programs, such as:
  - Evidence-based practices like focused deterrence, street outreach, violence interrupters, and hospital-based violence intervention models, complete with wraparound services such as behavioral therapy, trauma recovery, job training, education, housing and relocation services, and financial assistance; and,
  - Capacity-building efforts at CVI programs like funding more intervention workers; increasing their pay; providing training and professional development for intervention workers; and hiring and training workers to administer the programs.

Please refer to Treasury's Interim Final Rule for additional information.

## **5. Eligible Uses – Premium Pay**

### **5.1. What criteria should recipients use in identifying essential workers to receive premium pay?**

Essential workers are those in critical infrastructure sectors who regularly perform in-person work, interact with others at work, or physically handle items handled by others.

Critical infrastructure sectors include healthcare, education and childcare, transportation, sanitation, grocery and food production, and public health and safety, among others, as provided in the Interim Final Rule. Governments receiving Fiscal Recovery Funds have the discretion to add additional sectors to this list, so long as the sectors are considered critical to protect the health and well-being of residents.

The Interim Final Rule emphasizes the need for recipients to prioritize premium pay for lower income workers. Premium pay that would increase a worker's total pay above 150% of the greater of the state or county average annual wage requires specific justification for how it responds to the needs of these workers.

### **5.2. What criteria should recipients use in identifying third-party employers to receive grants for the purpose of providing premium pay to essential workers?**

Any third-party employers of essential workers are eligible. Third-party contractors who employ essential workers in eligible sectors are also eligible for grants to provide premium pay. Selection of third-party employers and contractors who receive grants is at the discretion of recipients.

To ensure any grants respond to the needs of essential workers and are made in a fair and transparent manner, the rule imposes some additional reporting requirements for grants to third-party employers, including the public disclosure of grants provided.

### **5.3. May recipients provide premium pay retroactively for work already performed?**

Yes. Treasury encourages recipients to consider providing premium pay retroactively for work performed during the pandemic, recognizing that many essential workers have not yet received additional compensation for their service during the pandemic.

## **6. Eligible Uses – Water, Sewer, and Broadband Infrastructure**

### **6.1. What types of water and sewer projects are eligible uses of funds?**

The Interim Final Rule generally aligns eligible uses of the Funds with the wide range of types or categories of projects that would be eligible to receive financial assistance

through the Environmental Protection Agency's Clean Water State Revolving Fund (CWSRF) or Drinking Water State Revolving Fund (DWSRF).

Under the DWSRF, categories of [eligible projects](#) include: treatment, transmission and distribution (including lead service line replacement), source rehabilitation and decontamination, storage, consolidation, and new systems development.

Under the CWSRF, categories of [eligible projects](#) include: construction of publicly-owned treatment works, nonpoint source pollution management, national estuary program projects, decentralized wastewater treatment systems, stormwater systems, water conservation, efficiency, and reuse measures, watershed pilot projects, energy efficiency measures for publicly-owned treatment works, water reuse projects, security measures at publicly-owned treatment works, and technical assistance to ensure compliance with the Clean Water Act.

As mentioned in the Interim Final Rule, eligible projects under the DWSRF and CWSRF support efforts to address climate change, as well as to meet cybersecurity needs to protect water and sewer infrastructure. Given the lifelong impacts of lead exposure for children, and the widespread nature of lead service lines, Treasury also encourages recipients to consider projects to replace lead service lines.

**6.2. May construction on eligible water, sewer, or broadband infrastructure projects continue past December 31, 2024, assuming funds have been obligated prior to that date?**

Yes. Treasury is interpreting the requirement that costs be incurred by December 31, 2024 to only require that recipients have obligated the funds by such date. The period of performance will run until December 31, 2026, which will provide recipients a reasonable amount of time to complete projects funded with Fiscal Recovery Funds.

**6.3. May recipients use funds as a non-federal match for the Clean Water State Revolving Fund (CWSRF) or Drinking Water State Revolving Fund (DWSRF)?**

Recipients may not use funds as a state match for the CWSRF and DWSRF due to prohibitions in utilizing federal funds as a state match in the authorizing statutes and regulations of the CWSRF and DWSRF.

**6.4. Does the National Environmental Policy Act (NEPA) apply to eligible infrastructure projects?**

NEPA does not apply to Treasury's administration of the Funds. Projects supported with payments from the Funds may still be subject to NEPA review if they are also funded by other federal financial assistance programs.

**6.5. What types of broadband projects are eligible?**

The Interim Final Rule requires eligible projects to reliably deliver minimum speeds of 100 Mbps download and 100 Mbps upload. In cases where it is impracticable due to geography, topography, or financial cost to meet those standards, projects must reliably deliver at least 100 Mbps download speed, at least 20 Mbps upload speed, and be scalable to a minimum of 100 Mbps download speed and 100 Mbps upload speed.

Projects must also be designed to serve unserved or underserved households and businesses, defined as those that are not currently served by a wireline connection that reliably delivers at least 25 Mbps download speed and 3 Mbps of upload speed.

**6.6. For broadband investments, may recipients use funds for related programs such as cybersecurity or digital literacy training?**

Yes. Recipients may use funds to provide assistance to households facing negative economic impacts due to Covid-19, including digital literacy training and other programs that promote access to the Internet. Recipients may also use funds for modernization of cybersecurity, including hardware, software, and protection of critical infrastructure, as part of provision of government services up to the amount of revenue lost due to the public health emergency.

**6.7. How do I know if a water, sewer, or broadband project is an eligible use of funds? Do I need pre-approval? [6/8]**

Recipients do not need approval from Treasury to determine whether an investment in a water, sewer, or broadband project is eligible under CSFRF/CLFRF. Each recipient should review the Interim Final Rule (IFR), along with the preamble to the Interim Final Rule, in order to make its own assessment of whether its intended project meets the eligibility criteria in the IFR. A recipient that makes its own determination that a project meets the eligibility criteria as outlined in the IFR may pursue the project as a CSFRF/CLFRF project without pre-approval from Treasury. Local government recipients similarly do not need state approval to determine that a project is eligible under CSFRF/CLFRF. However, recipients should be cognizant of other federal or state laws or regulations that may apply to construction projects independent of CSFRF/CLFRF funding conditions and that may require pre-approval.

For water and sewer projects, the IFR refers to the EPA [Drinking Water](#) and [Clean Water](#) State Revolving Funds (SRFs) for the categories of projects and activities that are eligible for funding. Recipients should look at the relevant federal statutes, regulations, and guidance issued by the EPA to determine whether a water or sewer project is eligible. Of note, the IFR does not incorporate any other requirements contained in the federal statutes governing the SRFs or any conditions or requirements that individual states may place on their use of SRFs.

**6.8. For broadband infrastructure investments, what does the requirement that infrastructure “be designed to” provide service to unserved or underserved households and businesses mean? [6/17]**

Designing infrastructure investments to provide service to unserved or underserved households or businesses means prioritizing deployment of infrastructure that will bring service to households or businesses that are not currently serviced by a wireline connection that reliably delivers at least 25 Mbps download speed and 3 Mbps of upload speed. To meet this requirement, states and localities should use funds to deploy broadband infrastructure projects whose objective is to provide service to unserved or underserved households or businesses. These unserved or underserved households or businesses do not need to be the only ones in the service area funded by the project.

**6.9. For broadband infrastructure to provide service to “unserved or underserved households or businesses,” must every house or business in the service area be unserved or underserved? [6/17]**

No. It suffices that an objective of the project is to provide service to unserved or underserved households or businesses. Doing so may involve a holistic approach that provides service to a wider area in order, for example, to make the ongoing service of unserved or underserved households or businesses within the service area economical. Unserved or underserved households or businesses need not be the *only* households or businesses in the service area receiving funds.

**6.10. May recipients use payments from the Funds for “middle mile” broadband projects? [6/17]**

Yes. Under the Interim Final Rule, recipients may use payments from the Funds for “middle-mile projects,” but Treasury encourages recipients to focus on projects that will achieve last-mile connections—whether by focusing on funding last-mile projects or by ensuring that funded middle-mile projects have potential or partnered last-mile networks that could or would leverage the middle-mile network.

**6.11. For broadband infrastructure investments, what does the requirement to “reliably” meet or exceed a broadband speed threshold mean? [6/17]**

In the Interim Final Rule, the term “reliably” is used in two places: to identify areas that are eligible to be the subject of broadband infrastructure investments and to identify expectations for acceptable service levels for broadband investments funded by the Coronavirus State and Local Fiscal Recovery Funds. In particular:

- The IFR defines “unserved or underserved households or businesses” to mean one or more households or businesses that are not currently served by a wireline connection that reliably delivers at least 25 Mbps download speeds and 3 Mbps of upload speeds.
- The IFR provides that a recipient may use Coronavirus State and Local Fiscal Recovery Funds to make investments in broadband infrastructure that are designed to provide service to unserved or underserved households or businesses and that are designed to, upon completion: (i) reliably meet or exceed

symmetrical 100 Mbps download speed and upload speeds; or (ii) in limited cases, reliably meet or exceed 100 Mbps download speed and between 20 Mbps and 100 Mbps upload speed and be scalable to a minimum of 100 Mbps download and upload speeds.

The use of “reliably” in the IFR provides recipients with significant discretion to assess whether the households and businesses in the area to be served by a project have access to wireline broadband service that can actually and consistently meet the specified thresholds of at least 25Mbps/3Mbps—i.e., to consider the actual experience of current wireline broadband customers that subscribe to services at or above the 25 Mbps/3 Mbps threshold. Whether there is a provider serving the area that advertises or otherwise claims to offer speeds that meet the 25 Mbps download and 3 Mbps upload speed thresholds is not dispositive.

When making these assessments, recipients may choose to consider any available data, including but not limited to documentation of existing service performance, federal and/or state-collected broadband data, user speed test results, interviews with residents and business owners, and any other information they deem relevant. In evaluating such data, recipients may take into account a variety of factors, including whether users actually receive service at or above the speed thresholds at all hours of the day, whether factors other than speed such as latency or jitter, or deterioration of the existing connections make the user experience unreliable, and whether the existing service is being delivered by legacy technologies, such as copper telephone lines (typically using Digital Subscriber Line technology) or early versions of cable system technology (DOCSIS 2.0 or earlier).

The IFR also provides recipients with significant discretion as to how they will assess whether the project itself has been designed to provide households and businesses with broadband services that meet, or even exceed, the speed thresholds provided in the rule.

**6.12. May recipients use Funds for pre-project development for eligible water, sewer, and broadband projects? [6/23]**

Yes. To determine whether Funds can be used on pre-project development for an eligible water or sewer project, recipients should consult whether the pre-project development use or cost is eligible under the Drinking Water and Clean Water State Revolving Funds (CWSRF and DWSRF, respectively). Generally, the CWSRF and DWSRF often allow for pre-project development costs that are tied to an eligible project, as well as those that are reasonably expected to lead to a project. For example, the DWSRF [allows](#) for planning and evaluations uses, as well as numerous pre-project development costs, including costs associated with obtaining project authorization, planning and design, and project start-up like training and warranty for equipment. Likewise, the CWSRF [allows](#) for broad pre-project development, including planning and assessment activities, such as cost and effectiveness analyses, water/energy audits and conservation plans, and capital improvement plans.

Similarly, pre-project development uses and costs for broadband projects should be tied to an eligible broadband project or reasonably expected to lead to such a project. For example, pre-project costs associated with planning and engineering for an eligible broadband infrastructure build-out is considered an eligible use of funds, as well as technical assistance and evaluations that would reasonably be expected to lead to commencement of an eligible project (e.g., broadband mapping for the purposes of finding an eligible area for investment).

All funds must be obligated within the statutory period between March 3, 2021 and December 31, 2024, and expended to cover such obligations by December 31, 2026.

## 7. Non-Entitlement Units (NEUs)

Answers to frequently asked questions on distribution of funds to NEUs can be found in this [FAQ supplement](#), which is regularly updated.

## 8. Ineligible Uses

### 8.1. What is meant by a pension “deposit”? Can governments use funds for routine pension contributions for employees whose payroll and covered benefits are eligible expenses?

Treasury interprets “deposit” in this context to refer to an extraordinary payment into a pension fund for the purpose of reducing an accrued, unfunded liability. More specifically, the interim final rule does not permit this assistance to be used to make a payment into a pension fund if both: (1) the payment reduces a liability incurred prior to the start of the COVID-19 public health emergency, and (2) the payment occurs outside the recipient’s regular timing for making such payments.

Under this interpretation, a “deposit” is distinct from a “payroll contribution,” which occurs when employers make payments into pension funds on regular intervals, with contribution amounts based on a pre-determined percentage of employees’ wages and salaries. In general, if an employee’s wages and salaries are an eligible use of Fiscal Recovery Funds, recipients may treat the employee’s covered benefits as an eligible use of Fiscal Recovery Funds.

### 8.2. May recipients use Fiscal Recovery Funds to fund Other Post-Employment Benefits (OPEB)? [6/8]

OPEB refers to benefits other than pensions (see, e.g., [Governmental Accounting Standards Board, “Other Post-Employment Benefits”](#)). Treasury has determined that Sections 602(c)(2)(B) and 603(c)(2), which refer only to pensions, do not prohibit CSFRF/CLFRF recipients from funding OPEB. Recipients of either the CSFRF/CLFRF may use funds for eligible uses, and a recipient seeking to use CSFRF/CLFRF funds for

OPEB contributions would need to justify those contributions under one of the four eligible use categories.

## 9. Reporting

On June 17, 2021, Treasury released [Guidance on Recipient Compliance and Reporting Responsibilities for the Coronavirus State and Local Fiscal Recovery Funds](#). Recipients should consult this guidance for additional detail and clarification on recipients' compliance and reporting responsibilities. A users' guide will be provided with additional information on how and where to submit required reports.

### 9.1. What records must be kept by governments receiving funds?

Financial records and supporting documents related to the award must be retained for a period of five years after all funds have been expended or returned to Treasury, whichever is later. This includes those which demonstrate the award funds were used for eligible purposes in accordance with the ARPA, Treasury's regulations implementing those sections, and Treasury's guidance on eligible uses of funds.

### 9.2. What reporting will be required, and when will the first report be due?

Recipients will be required to submit an interim report, quarterly project and expenditure reports, and annual Recovery Plan Performance Reports as specified below, regarding their utilization of Coronavirus State and Local Fiscal Recovery Funds.

Interim reports: States (defined to include the District of Columbia), territories, metropolitan cities, counties, and Tribal governments will be required to submit one interim report. The interim report will include a recipient's expenditures by category at the summary level and for states, information related to distributions to non-entitlement units of local government must also be included in the interim report. The interim report will cover activity from the date of award to July 31, 2021 and must be submitted to Treasury by August 31, 2021. Non-entitlement units of local government are not required to submit an interim report.

Quarterly Project and Expenditure reports: State (defined to include the District of Columbia), territorial, metropolitan city, county, and Tribal governments will be required to submit quarterly project and expenditure reports. This report will include financial data, information on contracts and subawards over \$50,000, types of projects funded, and other information regarding a recipient's utilization of award funds. Reports will be required quarterly with the exception of non-entitlement units, which will report annually. An interim report is due on August 31, 2021. The reports will include the same general data as those submitted by recipients of the Coronavirus Relief Fund, with some modifications to expenditure categories and the addition of data elements related to specific eligible uses. The initial quarterly Project and Expenditure report will cover two calendar quarters from the date of award to September 30, 2021 and must be submitted to

Treasury by October 31, 2021. The subsequent quarterly reports will cover one calendar quarter and must be submitted to Treasury within 30 days after the end of each calendar quarter.

Non-entitlement units of local government will be required to submit the project and expenditure report annually. The initial annual Project and Expenditure report for non-entitlement units of local government will cover activity from the date of award to September 30, 2021 and must be submitted to Treasury by October 31, 2021. The subsequent annual reports must be submitted to Treasury by October 31 each year.

Recovery Plan Performance Reports: States (defined to include the District of Columbia), territories, metropolitan cities, and counties with a population that exceeds 250,000 residents will also be required to submit an annual Recovery Plan Performance Report to Treasury. This report will include descriptions of the projects funded and information on the performance indicators and objectives of each award, helping local residents understand how their governments are using the substantial resources provided by Coronavirus State and Local Fiscal Recovery Funds program. The initial Recovery Plan Performance Report will cover activity from date of award to July 31, 2021 and must be submitted to Treasury by August 31, 2021. Thereafter, the Recovery Plan Performance Reports will cover a 12-month period and recipients will be required to submit the report to Treasury within 30 days after the end of the 12-month period. The second Recovery Plan Performance Report will cover the period from July 1, 2021 to June 30, 2022 and must be submitted to Treasury by July 31, 2022. Each annual Recovery Plan Performance Report must be posted on the public-facing website of the recipient. Local governments with fewer than 250,000 residents, Tribal governments, and non-entitlement units of local government are not required to develop a Recovery Plan Performance Report.

Please see the [Guidance on Recipient Compliance and Reporting Responsibilities](#) for more information.

**9.3. What provisions of the Uniform Guidance for grants apply to these funds? Will the Single Audit requirements apply?**

Most of the provisions of the Uniform Guidance (2 CFR Part 200) apply to this program, including the Cost Principles and Single Audit Act requirements. Recipients should refer to the Assistance Listing for detail on the specific provisions of the Uniform Guidance that do not apply to this program. The Assistance Listing will be available on beta.SAM.gov.

**9.4. Once a recipient has identified a reduction in revenue, how will Treasury track use of funds for the provision of government services? [6/8]**

The ARPA establishes four categories of eligible uses and further restrictions on the use of funds to ensure that Fiscal Recovery Funds are used within the four eligible use categories. The Interim Final Rule implements these restrictions, including the scope of

the eligible use categories and further restrictions on tax cuts and deposits into pensions. Reporting requirements will align with this structure.

Consistent with the broad latitude provided to recipients to use funds for government services to the extent of the reduction in revenue, recipients will be required to submit a description of services provided. As discussed in IFR, these services can include a broad range of services but may not be used directly for pension deposits, contributions to reserve funds, or debt service. Recipients may use sources of funding other than Fiscal Recovery Funds to make deposits to pension funds, contribute to reserve funds, and pay debt service, including during the period of performance for the Fiscal Recovery Fund award.

For recipients using Fiscal Recovery Funds to provide government services to the extent of reduction in revenue, the description of government services reported to Treasury may be narrative or in another form, and recipients are encouraged to report based on their existing budget processes and to minimize administrative burden. For example, a recipient with \$100 in revenue replacement funds available could indicate that \$50 were used for personnel costs and \$50 were used for pay-go building of sidewalk infrastructure.

In addition to describing the government services provided to the extent of reduction in revenue, all recipients will also be required to indicate that Fiscal Recovery Funds are not used directly to make a deposit in a pension fund. Further, recipients subject to the tax offset provision will be required to provide information necessary to implement the Interim Final Rule, as described in the Interim Final Rule. Treasury does not anticipate requiring other types of reporting or recordkeeping on spending in pensions, debt service, or contributions to reserve funds.

These requirements are further detailed in the guidance on reporting requirements for the Fiscal Recovery Funds available [here](#).

**9.5. What is the Assistance Listing and Catalog of Federal Domestic Assistance (CFDA) number for the program? [6/8]**

The [Assistance Listing](#) for the Coronavirus State and Local Fiscal Recovery Funds (CSLFRF) was published May 28, 2021 on SAM.gov. This includes the final CFDA Number for the program, 21.027.

The assistance listing includes helpful information including program purpose, statutory authority, eligibility requirements, and compliance requirements for recipients. The CFDA number is the unique 5-digit code for each type of federal assistance, and can be used to search for program information, including funding opportunities, spending on [usaspending.gov](#), or audit results through the Federal Audit Clearinghouse.

To expedite payments and meet statutory timelines, Treasury issued initial payments under an existing CFDA number. If you have already received funds or captured the

initial CFDA number in your records, please update your systems and reporting to reflect the final CFDA number 21.027. **Recipients must use the final CFDA number for all financial accounting, audits, subawards, and associated program reporting requirements.**

To ensure public trust, Treasury expects all recipients to serve as strong stewards of these funds. This includes ensuring funds are used for intended purposes and recipients have in place effective financial management, internal controls, and reporting for transparency and accountability.

Please see [Treasury's Interim Final Rule](#) and the [Guidance on Recipient Compliance and Reporting Responsibilities](#) for more information.

## 10. Miscellaneous

### 10.1. May governments retain assets purchased with Fiscal Recovery Funds? If so, what rules apply to the proceeds of disposition or sale of such assets?

Yes, if the purchase of the asset was consistent with the limitations on the eligible use of funds. If such assets are disposed of prior to December 31, 2024, the proceeds would be subject to the restrictions on the eligible use of payments.

### 10.2. Can recipients use funds for administrative purposes?

Recipients may use funds to cover the portion of payroll and benefits of employees corresponding to time spent on administrative work necessary due to the COVID-19 public health emergency and its negative economic impacts. This includes, but is not limited to, costs related to disbursing payments of Fiscal Recovery Funds and managing new grant programs established using Fiscal Recovery Funds.

### 10.3. Are recipients required to remit interest earned on CSFRF/CLFRF payments made by Treasury? [5/27]

No. CSFRF/CLFRF payments made by Treasury to states, territories, and the District of Columbia are not subject to the requirement of the Cash Management Improvement Act and Treasury's implementing regulations at 31 CFR part 205 to remit interest to Treasury. CSFRF/CLFRF payments made by Treasury to local governments and Tribes are not subject to the requirement of 2 CFR 200.305(b)(8)-(9) to maintain balances in an interest-bearing account and remit payments to Treasury.

### 10.4. Is there a deadline to apply for funds? [5/27]

The Interim Final Rule requires that costs be incurred by December 31, 2024. Direct recipients are encouraged to apply as soon as possible. For direct recipients other than Tribal governments, there is not a specific application deadline.

Tribal governments do have deadlines to complete the application process and should visit [www.treasury.gov/SLFRPTribal](http://www.treasury.gov/SLFRPTribal) for guidance on applicable deadlines.

Non-entitlement units of local government should contact their state government for information on applicable deadlines.

**10.5. May recipients use funds to cover the costs of consultants to assist with managing and administering the funds? [6/8]**

Yes. Recipients may use funds for administering the CSFRF/CLFRF program, including costs of consultants to support effective management and oversight, including consultation for ensuring compliance with legal, regulatory, and other requirements.

## **11. Operations**

**11.1. How do I know if my entity is eligible?**

The Coronavirus State and Local Fiscal Recovery Funds American Rescue Plan Act of 2021 set forth the jurisdictions eligible to receive funds under the program, which are:

- States and the District of Columbia
- Territories
- Tribal governments
- Counties
- Metropolitan cities (typically, but not always, those with populations over 50,000)
- Non-entitlement units of local government, or smaller local governments (typically, but not always, those with populations under 50,000)

**11.2. How does an eligible entity request payment?**

Eligible entities (other than non-entitlement units) must submit their information to the [Treasury Submission Portal](#). Please visit the [Coronavirus State and Local Fiscal Recovery Fund website](#) for more information on the submission process.

**11.3. I cannot log into the Treasury Submission Portal or am having trouble navigating it. Who can help me?**

If you have questions about the Treasury Submission Portal or for technical support, please email [covidreliefitsupport@treasury.gov](mailto:covidreliefitsupport@treasury.gov).

**11.4. What do I need to do to receive my payment?**

All eligible payees are required to have a DUNS Number previously issued by Dun & Bradstreet (<https://www.dnb.com/>).

All eligible payees are also required to have an active registration with the System for Award Management (SAM) (<https://www.sam.gov>).

And eligible payees must have a bank account enabled for Automated Clearing House (ACH) direct deposit. Payees with a Wire account are encouraged to provide that information as well.

More information on these and all program pre-submission requirements can be found on the [Coronavirus State and Local Fiscal Recovery Fund website](#).

**11.5. Why is Treasury employing id.me for the Treasury Submission Portal?**

ID.me is a trusted technology partner to multiple government agencies and healthcare providers. It provides secure digital identity verification to those government agencies and healthcare providers to make sure you're you – and not someone pretending to be you – when you request access to online services. All personally identifiable information provided to ID.me is encrypted and disclosed only with the express consent of the user. Please refer to ID.me Contact Support for assistance with your ID.me account. Their support website is <https://help.id.me>.

**11.6. Why is an entity not on the list of eligible entities in Treasury Submission Portal?**

The ARPA statute lays out which governments are eligible for payments. The list of entities within the Treasury Submission Portal includes entities eligible to receive a direct payment of funds from Treasury, which include states (defined to include the District of Columbia), territories, Tribal governments, counties, and metropolitan cities.

Eligible non-entitlement units of local government will receive a distribution of funds from their respective state government and should not submit information to the Treasury Submission Portal.

If you believe an entity has been mistakenly left off the eligible entity list, please email [SLFRP@treasury.gov](mailto:SLFRP@treasury.gov).

**11.7. What is an Authorized Representative?**

An Authorized Representative is an individual with legal authority to bind the government entity (e.g., the Chief Executive Officer of the government entity). An Authorized Representative must sign the Acceptance of Award terms for it to be valid.

**11.8. How does a Tribal government determine their allocation?**

Tribal governments will receive information about their allocation when the submission to the Treasury Submission Portal is confirmed to be complete and accurate.

**11.9. How do I know the status of my request for funds (submission)?**

Entities can check the status of their submission at any time by logging into [Treasury Submission Portal](#).

**11.10. My Treasury Submission Portal submission requires additional information/correction. What is the process for that?**

If your Authorized Representative has not yet signed the award terms, you can edit your submission with in the into [Treasury Submission Portal](#). If your Authorized Representative has signed the award terms, please email [SLFRP@treasury.gov](mailto:SLFRP@treasury.gov) to request assistance with updating your information.

**11.11. My request for funds was denied. How do I find out why it was denied or appeal the decision?**

Please check to ensure that no one else from your entity has applied, causing a duplicate submission. Please also review the list of all eligible entities on the [Coronavirus State and Local Fiscal Recovery Fund website](#).

If you still have questions regarding your submission, please email [SLFRP@treasury.gov](mailto:SLFRP@treasury.gov).

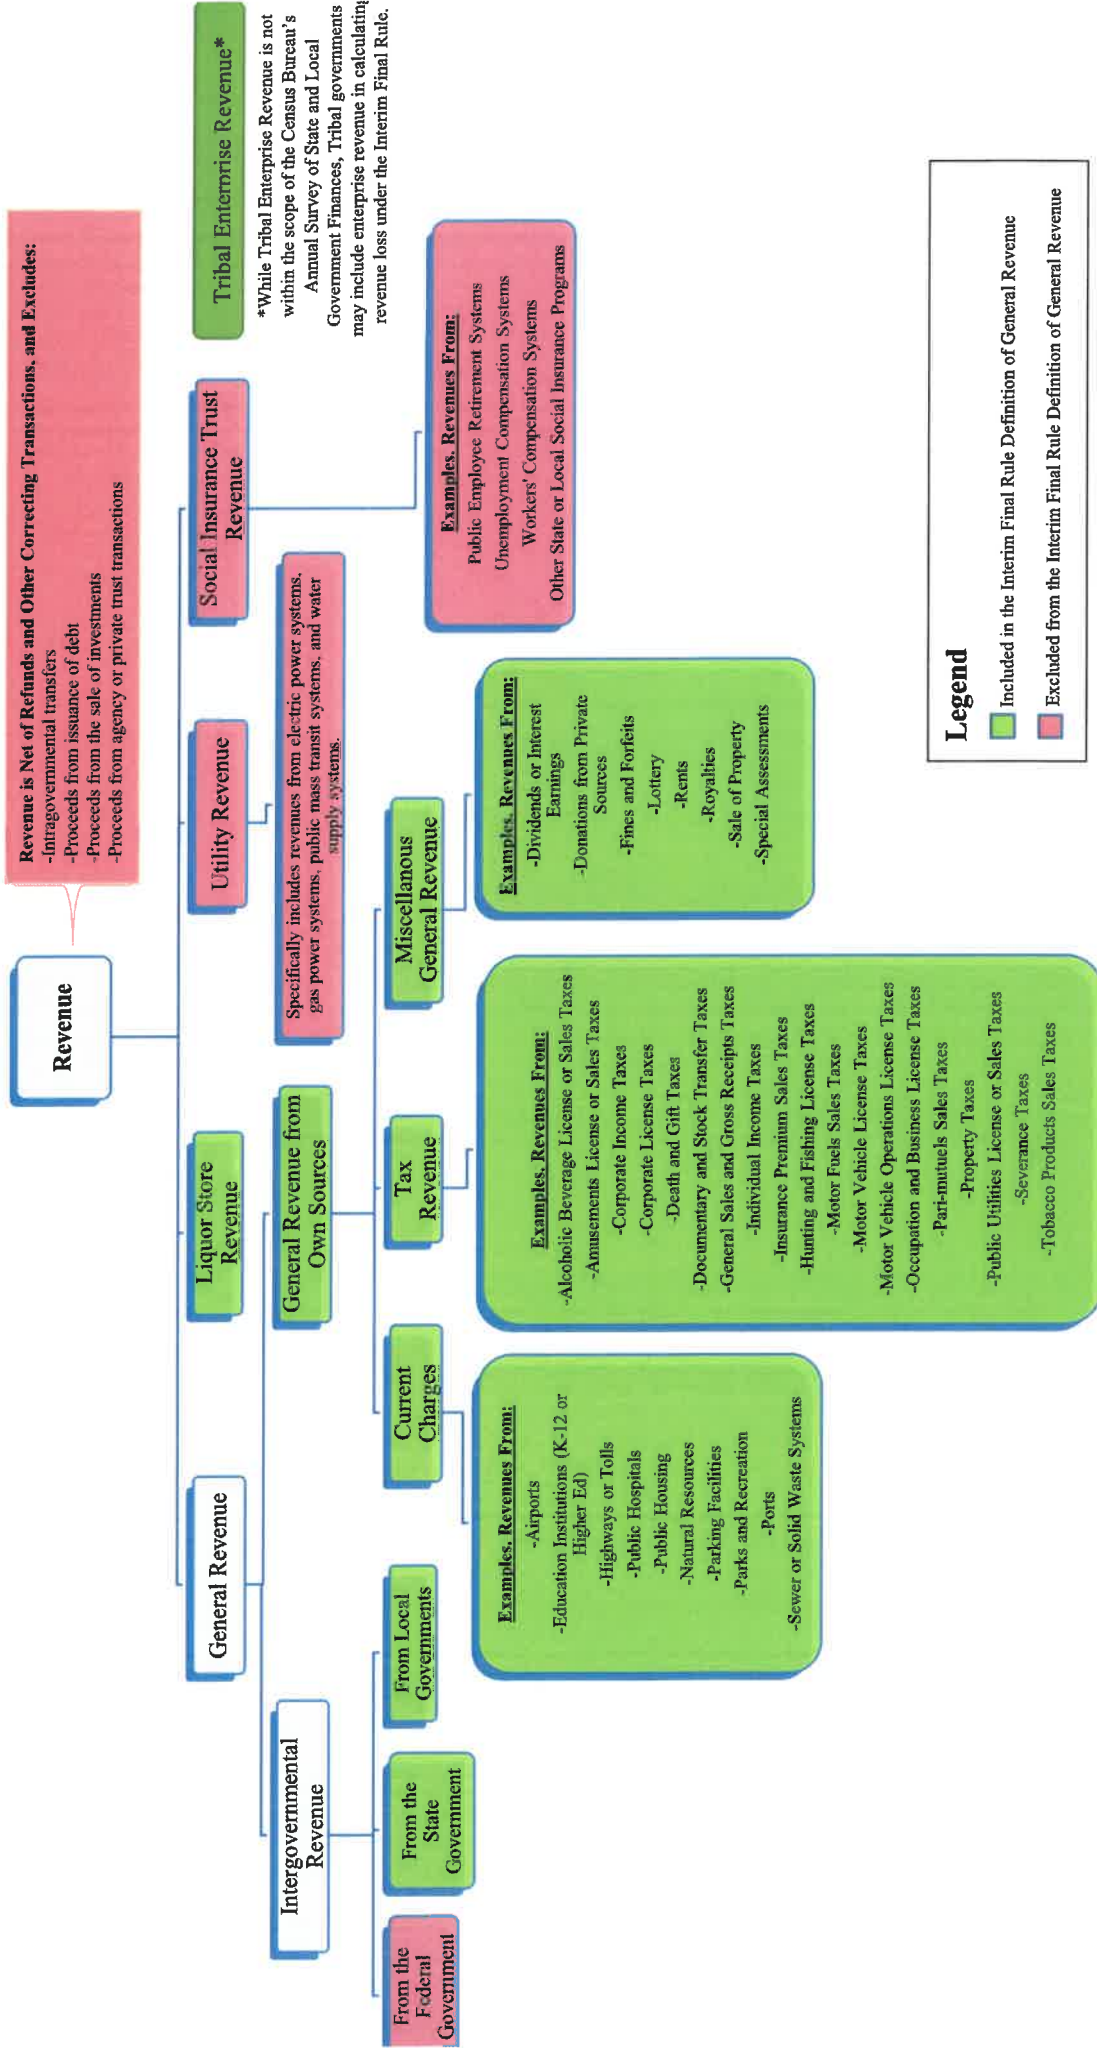

**11.12. When will entities get their money?**

Before Treasury is able to execute a payment, a representative of an eligible government must submit the government's information for verification through the [Treasury Submission Portal](#). The verification process takes approximately four business days. If any errors are identified, the designated point of contact for the government will be contacted via email to correct the information before the payment can proceed. Once verification is complete, the designated point of contact of the eligible government will receive an email notifying them that their submission has been verified. Payments are generally scheduled for the next business day after this verification email, though funds may not be available immediately due to processing time of their financial institution.

**11.13. How does a local government entity provide Treasury with a notice of transfer of funds to its State?**

For more information on how to provide Treasury with notice of transfer to a state, please email [SLRedirectFunds@treasury.gov](mailto:SLRedirectFunds@treasury.gov).
